

*Respondent's obligation to respond:* Mandatory (40 CFR part 63, subpart MMM).

*Estimated number of respondents:* 19 (total).

*Frequency of response:* Quarterly and semiannually.

*Total estimated burden:* 13,200 hours (per year). Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$2,150,000 (per year), which includes \$339,000 annualized capital or operation & maintenance costs.

*Changes in the Estimates:* There is no change in hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. This ICR corrects a minor error in the currently approved ICR by adding burden for certain new respondents who may be required to repeat their conducted performance tests; however, this correction has no significant impact on the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup or operation and maintenance (O&M) costs.
