

This action supports new public instrument procedures.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AGL MI E5 Sandusky, MI [Establish]
Sandusky City Airport, MI

(Lat. 43°27′20″ N, long. 82°50′30″ W)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of the Sandusky City Airport.

Issued in Fort Worth, Texas, on March 14, 2023.

Martin A. Skinner,

Manager, Operations Support Group, ATO Central Service Center.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2023–0721; Airspace Docket No. 22–ASW–16]

RIN 2120–AA66

Revocation of Jet Route J–184 and Establishment of Area Navigation Route Q–180; Southwest United States

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to revoke Jet Route J–184 and establish Area Navigation (RNAV) route Q–180 in the southwest United States. The existing Jet Route has service limitations associated with signal coverage related issues. The new RNAV route would replace the Jet Route, as well as provide additional RNAV routing within the National Airspace System (NAS) in support of transitioning it from a ground-based to satellite-based navigation system.

DATES: Comments must be received on or before May 8, 2023.

ADDRESSES: Send comments identified by FAA Docket No. FAA–2023–0721 and Airspace Docket No. 22–ASW–16 using any of the following methods:
* *Federal eRulemaking Portal:* Go to www.regulations.gov and follow the online instructions for sending your comments electronically.

* *Mail:* Send comments to Docket Operations, M–30; U.S. Department of Transportation, 1200 New Jersey Avenue SE, Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

* *Hand Delivery or Courier:* Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

* *Fax:* Fax comments to Docket Operations at (202) 493–2251.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.dot.gov/privacy.

Docket: Background documents or comments received may be read at www.regulations.gov at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. You may also contact the Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the enroute structure as necessary to preserve the safe and efficient flow of air traffic within the NAS.

Comments Invited

The FAA invites interested persons to participate in this rulemaking by submitting written comments, data, or views. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental,

and energy-related aspects of the proposal. The most helpful comments reference a specific portion of the proposal, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should submit only one time if comments are filed electronically, or commenters should send only one copy of written comments if comments are filed in writing.

The FAA will file in the docket all comments it receives, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Before acting on this proposal, the FAA will consider all comments it receives on or before the closing date for comments. The FAA will consider comments filed after the comment period has closed if it is possible to do so without incurring expense or delay. The FAA may change this proposal in light of the comments it receives.

Availability of Rulemaking Documents

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA's web page at www.faa.gov/air-traffic/publications/airspace-amendments/.

You may review the public docket containing the proposal, any comments received and any final disposition in person in the Dockets Operations office (see **ADDRESSES** section for address, phone number, and hours of operations). An informal docket may also be examined during normal business hours at the office of the Operations Support Group, Central Service Center, Federal Aviation Administration, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Incorporation by Reference

Jet Routes are published in paragraph 2004 and United States Area Navigation Routes (Q-routes) are published in paragraph 2006 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document proposes to amend the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022. These updates would be published in the next update to FAA Order JO 7400.11. That order is publicly available as listed in the **ADDRESSES** section of this document.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Background

To support of the large amount of air traffic transiting the NAS between the west coast and the southeast United States, the FAA requires aircraft flying between the Phoenix, AZ, area and West Texas area to be on Jet Routes, including J-184, when flying above 18,000 feet mean sea level (MSL) or Flight Level 180 (FL180). This requirement ensures a safe, efficient flow of air traffic through the area, prevents air traffic bottlenecks, and keeps aircraft clear of the Air Traffic Control Airspace Areas (ATCAA), the White Sands Missile Range (WSMR), and the R-5107 restricted areas located south of WSMR that exist in the area.

During a periodic flight inspection of the Deming, NM, Very High Frequency (VHF) Omni-Directional Range (VOR)/Tactical Air Navigation (VORTAC) navigational aid (NAVAID) conducted June 3–4, 2021, the FAA identified the Deming VORTAC 274° radial was out of tolerance and not available for navigational purposes on Jet Route J-184. As a result of the out of tolerance signal coverage finding, the FAA published a Notice to Air Missions (NOTAM) indicating that the segment of J-184 from the Deming VORTAC 274° radial to the Buckeye, AZ, VORTAC was not available except to aircraft equipped with a suitable Area Navigation (RNAV) system with Global Positioning Service (GPS) capability. The FAA has been unable to overcome the Deming VORTAC 274° radial signal coverage issue since it was identified. The NOTAM requiring aircraft flying J-184 between the Deming and Buckeye VORTACs to be RNAV GPS equipped has remained in effect.

To address the requirement for aircraft flying J-184 between the Deming and Buckeye VORTACs to be RNAV GPS equipped, the FAA is planning to replace J-184 with a new RNAV route, Q-180, that would overlay the J-184 route of flight. The new Q-route would extend between the Buckeye, AZ, VORTAC located west of Phoenix, AZ, and the Newman, TX, VORTAC located in West Texas. The new Q-180 would mitigate the Deming VORTAC signal coverage issue, enable removal of the NOTAM requiring RNAV GPS equipage on J-184, and continue supporting the safe, efficient flow of air traffic equipped with RNAV capabilities between the Phoenix area and the West Texas area. Lastly, the new Q-route would support the FAA's Next Generation Air Transportation System (NextGen) efforts to modernize the NAS

navigation system from ground-based to satellite-based.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to revoke Jet Route J-184 and establish RNAV route Q-180 due to service limitations associated with signal coverage related issues on J-184. The proposed Air Traffic Service (ATS) route actions are described below.

J-184: J-184 currently extends between the Buckeye, AZ, VORTAC and the Newman, TX, VORTAC. The FAA proposes to remove the route in its entirety.

Q-180: Q-180 is a new RNAV route that would extend between the Buckeye, AZ, VORTAC and the Newman, TX, VORTAC NAVAIDs. This new Q-route would provide RNAV routing along the same route of flight as Jet Route J-184 and would retain flight safety and NAS efficiency for aircraft transiting between the Phoenix, AZ, and El Paso, TX, areas.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 2004 Jet Routes.

BILLING CODE 4910–13–P

DEPARTMENT OF COMMERCE**National Institute of Standards and Technology****15 CFR Part 231**

[Docket Number: 230313–0074]

RIN 0693–AB70

Preventing the Improper Use of CHIPS Act Funding

AGENCY: CHIPS Program Office, National Institute of Standards and Technology, Department of Commerce.

ACTION: Proposed rule; request for public comment.

SUMMARY: The CHIPS Act (the Act) established an incentives program to reestablish and sustain U.S. leadership across the semiconductor supply chain. To ensure that funding provided through this program does not directly or indirectly benefit foreign countries of concern, the Act includes certain limitations on funding recipients, such as prohibiting engagement in certain significant transactions involving the material expansion of semiconductor manufacturing capacity in foreign countries of concern and prohibiting certain joint research or technology licensing efforts with foreign entities of concern. The Department of Commerce (Department) is issuing, and requesting public comments on, a proposed rule to set forth terms related to these limitations and procedures for funding recipients to notify the Secretary of Commerce (Secretary) of any planned

significant transactions that may be prohibited.

DATES: To be assured of consideration, written comments must be received on or before May 22, 2023.

ADDRESSES: You may submit comments, identified by docket number NIST–2023–0001 or RIN 0693–AB70, through any of the following:

- Federal eRulemaking Portal at <https://www.regulations.gov>. You can find this proposed rule by searching for its *regulations.gov* docket number NIST–2023–0001.

- Email: guardrails@chips.gov. Include RIN 0693–AB70 in the subject line of the message.

The Department will consider all comments received before the close of the comment period. Filers should name their files using the name of the person or entity submitting the comments except where comments are intended to be anonymous.

The Department will accept anonymous comments or comments containing business confidential information (BCI). Anyone submitting business confidential information should clearly identify the business confidential portion at the time of submission, file a statement justifying nondisclosure and referring to the specific legal authority claimed, and provide a non-confidential submission that summarizes the BCI in sufficient detail to permit a reasonable understanding of the substance of the information by the public. For anyone seeking to submit comments with BCI, the file name of the business confidential information must be clearly marked “BUSINESS CONFIDENTIAL” and it must be indicated on top of that page. The corresponding non-confidential version of those comments must be clearly marked “PUBLIC.” The file name of the non-confidential version should begin with the character “P.” The “BC” and “P” should be followed by the name of the person or entity submitting the comments. Any

submissions with file names that do not begin with a “BC” will be part of the public record and will generally be made publicly available through <https://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Sam Marullo, Director, CHIPS Policy at (202) 482–3844 or askchips@chips.gov. Please direct media inquiries to the CHIPS Press Team at press@chips.gov.

SUPPLEMENTARY INFORMATION:**Background**

Semiconductors are essential components of electronic devices that enable telecommunications and grid infrastructure, run critical business and government information technology and operational technology systems, and are necessary to a vast array of products, from automobiles to fighter jets. Recognizing the criticality of supply chain security and resilience for semiconductors and related products, the President signed the *Executive Order on America’s Supply Chains*¹ shortly after taking office in February 24, 2021. This Executive order, among other things, directed several Departments to undertake assessments of critical supply chains; several of the resulting reports address microelectronics and related subcomponent supply chains.² The resulting June 2021 *White House Report on Building Resilient Supply Chains, Revitalizing American Manufacturing, and Fostering Broad-Based Growth*³
