Overthrust states that the tendered tariff sheets revise Overthrust's FERC Gas Tariff to implement provisions permitting Overthrust and its shippers to negotiate mutually acceptable rates as provided by the Commission's Policy Statement issued January 31, 1996, in Docket No. RM95-6 (the Policy Statement). Overthrust's negotiated-rate option would apply to its open-access services under Rate Schedules FT and IT. In the Policy Statement, the Commission stated, among other things, that it would allow pipelines to implement a negotiated/recourse-rate program. Under such a program, the pipeline's existing tariff rates would constitute its recourse rates. With the implementation of this service, a shipper that voluntarily elects not to take transportation service under the recourse rate may negotiate with Overthrust for a rate that is not limited by the stated tariff rates.

Overthrust states that a copy of this filing has been served upon its customers, the Public Service Commission of Utah and the Public Service Commission of Wyoming.

May 7, 2001.

Take notice that on April 13, 2001, Transwestern Pipeline Company (Transwestern) filed a letter to comply with the Commission's March 14, 2001, order in this proceeding.¹ The letter explains (1) Why its proposed netting and trading proposal relies on dollar values as opposed to volumetric trades, (2) whether imbalances on its system could be netted and traded on a volumetric basis, and (3) how existing Section 27.1(e) of Transwestern's tariff, which provides for the make up of imbalances on an in-kind basis, would operate with Transwestern's proposed new tariff language.
