SUPPLEMENTARY INFORMATION:

Title: Customer Satisfaction Surveys.
OMB Control No: 2125-New.
Background: Executive Order 12862, "Setting Customer Service Standards" requires that Federal agencies provide the highest quality service to our customers by identifying them and determining what they think about our services and products. The surveys covered in this request for a generic clearance will provide the FHWA a means to gather this data directly from our customers. The information obtained from the surveys will be used to assist in evaluating service delivery and processes. The responses to the surveys will be voluntary and will not involve information that is required by regulations. There will be no direct costs to the respondents other than their time. The FHWA plans to provide an electronic means for responding to the majority of the surveys via the World Wide Web.

Respondents: State and local governments, highway industry organizations, general public.

Frequency: Generally, annually.

Estimated Total Annual Burden

Hours: The burden hours per response will vary with each survey; however, we estimate an average burden of 20 minutes for each survey. We estimate that FHWA will survey an average of 15,000 respondents annually. Therefore, the total annual estimate is 5,000 burden hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burdens could be minimized, including use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Electronic Access: Internet users may access all comments received by the U.S. DOT Dockets, Room PL-401, by using the universal resource locator (URL): <http://dms.dot.gov>. It is available 24 hours each day, 365 days each year. Please follow the instructions online for more information and help. An electronic copy of this document may be downloaded using a modem and suitable communications software from the Government Printing Office Electronic Bulletin Board Service at telephone number 202-512-1661. DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Lahaina, Kaanapali & Pacific Railroad

[Docket Number FRA-2001-10516]

The Lahaina, Kaanapali & Pacific Railroad (LKP) requests a waiver of

compliance with certain provisions of the 49 CFR part 230, *Inspection and Maintenance Standards for Steam Locomotives*. The specific part of the regulations for which waiver is sought is CFR 230.25, which requires that the maximum allowable stress per square inch (psi) of the net cross sectional area of fire box and combustion chamber stays shall be 7,500 psi. LKP seeks this waiver to allow the stay bolt stress to be increased to 12,600 psi, which meets the requirements of the 1983 ASME code, for two steam locomotives named Anaka and Myrtle. The railroad feels that their method of attachment (welding) provides greater strength than threaded attachment of the stays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA-2001-10516) and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PL-401, 400 Seventh Street, S.W., Washington, DC. 20590-0001. Communications received within 30 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Issued in Washington, DC on September 19, 2001.

Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.
