

are available electronically at no cost on the Government Printing Office site at [www.access.gpo.gov/davisbacon](http://www.access.gpo.gov/davisbacon). They are also available electronically by subscription to the Davis-Bacon Online Service (<http://davisbacon.fedworld.gov>) of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1-800-363-2068. This subscription offers value-added features such as electronic delivery of modified wage decisions directly to the user's desktop, the ability to access prior wage decisions issued during the year, extensive Help desk Support, etc.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. (202) 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the six separate Volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC., This 11th Day of April, 2002.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (02-051)]

### Information Collection; Comment Request

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of information collection.

**SUMMARY:** The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3506(c)(2)(A)). NASA will utilize the information collected to determine whether the Agency's recruitment efforts are reaching all segments of the country.

**DATES:** All comments should be submitted within 60 calendar days from the date of this publication.

**ADDRESSES:** All comments should be addressed to Ms. Candace Irwin, Code FPP, National Aeronautics and Space Administration, Washington, DC 20546-0001.

**FOR FURTHER INFORMATION CONTACT:** Ms. Nancy Kaplan, NASA Reports Officer, (202) 358-1372.

*Title:* NASA Voluntary On-Line Job Applicant Racial and Ethnic Data Collection.

*OMB Number:* 2700.

*Type of review:* New collection.

*Need and Uses:* Information is used by NASA personnel staff to determine if recruitment efforts are reaching all segments of the country, as required by Federal law.

*Affected Public:* Individuals or households; Federal government.

*Number of Respondents:* 40,000.

*Responses Per Respondent:* 1.

*Annual Responses:* 40,000.

*Hours Per Request:* 5 min/request.

*Annual Burden Hours:* 3,334.

*Frequency of Report:* On occasion.

**David B. Nelson,**

*Deputy Chief Information Officer, Office of the Administrator.*

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Records Schedules; Availability and Request for Comments

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Notice of availability of proposed records schedules; request for comments.

**SUMMARY:** The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period

of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

**DATES:** Request for copies must be received in writing on or before June 3, 2002. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

**ADDRESSES:** To request a copy of any records schedule identified in this notice, write to the Life Cycle Management Division (NWML), National Archives and Records Administration (NARA), 8601 Adelphi Road, College Park, MD 20740-6001. Requests also may be transmitted by FAX to 301-713-6852 or by e-mail to [records.mgt@nara.gov](mailto:records.mgt@nara.gov). Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

**FOR FURTHER INFORMATION CONTACT:** Marie Allen, Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: (301) 713-7110. E-mail: [records.mgt@nara.gov](mailto:records.mgt@nara.gov).

**SUPPLEMENTARY INFORMATION:** Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This

approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

#### Schedules Pending

1. Department of Agriculture, Food and Nutrition Service (N1-462-02-1, 4 items, 4 temporary items). Records accumulated in connection with billings submitted to the agency by contractors hired to visit and report findings on stores that participate in the Food Stamp Program. Records include call orders and confirmation letters issued to prospective contractors, billing invoices, and deficiency reports submitted by contractors. Also included are electronic copies of documents created using electronic mail and word processing.

2. Department of the Air Force, Agency-wide (N1-AFU-02-5, 78 items, 78 temporary items). Electronic versions of temporary records relating to logistics and maintenance matters. Included are electronic copies of documents created using electronic mail and word processing as well as electronic records that supplement or replace paper records already approved for disposal. Records relate to such matters as the preparation of aircraft inventories and other accountability documents, the disposal of surplus aircraft, materiel deficiencies, maintenance activities at depots, equipment inspections, the operation of telephone and telecommunications equipment, and training.

3. Department of the Air Force, Agency-wide (N1-AFU-02-6, 87 items,

87 temporary items). Electronic versions of temporary records relating to accounting and finance. Included are electronic copies of documents created using electronic mail and word processing as well as electronic records that supplement or replace paper records already approved for disposal. Records relate to such matters as cost accounting, financial statements, contract financing, international accounting, and revolving funds.

4. Department of the Army, Agency-wide (N1-AU-02-3, 3 items, 2 temporary items). Records relating to the abatement of local area environmental pollution, including such files as inventories, source documentation, and electronic copies of documents created using electronic mail and word processing. Recordkeeping copies of agency-wide pollution abatement information, including documentation forwarded from local areas, is proposed for permanent retention. This schedule also authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

5. Department of the Army, Agency-wide (N1-AU-02-9, 2 items, 2 temporary items). Records relating to educational and developmental intervention services. Included are referral documentation, evaluations, eligibility documentation, early intervention service coordination documents, transition plans, and electronic copies of documents created using electronic mail and word processing. This schedule also authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

6. Department of the Army, Agency-wide (N1-AU-02-10, 2 items, 2 temporary items). Records relating to periodic alcohol and drug testing of personnel who handle chemical and nuclear weapons and materiel. Included are such records as urinalysis test results and electronic copies of documents created using electronic mail and word processing. This schedule also authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

7. Department of the Army, Agency-wide (N1-AU-02-11, 2 items, 2 temporary items). Records relating to records disposition exceptions and freezes. Included are requests, approvals, and related information reflecting exceptions to record disposition standards. Also included are electronic copies of documents created using electronic mail and word processing. This schedule also authorizes the agency to apply the

proposed disposition instructions to any recordkeeping medium.

8. Department of Justice, United States Marshals Service (N1-527-02-1, 3 items, 3 temporary items). Records relating to court and special security officers. Records include such documents as personal history statements, medical histories, background investigation records, and firearm qualifications. Also included are electronic copies of documents created using electronic mail and word processing.

9. Department of Labor, Employment Standards Administration (N1-448-01-2, 105 items, 90 temporary items). Records of the Office of Federal Contract Compliance Programs, including such record series as Deputy Assistant Secretary review records, invitations to high agency officials, drafts of publications, computer-generated hardcopy reports, customer and equal employment opportunity (EEO) surveys, correspondence concerning EEO awards, contract compliance logs, conciliation agreement files, contractor debarment and reinstatement files, compliance extension files, expert witness files, Joint Review Committee minutes and correspondence, an investigation case tracking system, records relating to external reviews and audits, and records of yearly task forces. Also included are electronic copies of documents created using electronic mail and word processing. Proposed for permanent retention are such records as recordkeeping copies of publications, records of EEO awards, and databases relating to compliance reviews, Federal procurement, complaint administration, and other matters along with the related system documentation.

10. Department of State, Bureau of Political and Military Affairs (N1-59-01-21, 48 items, 37 temporary items). Records of the Office Regional Security and Arms Transfers relating to clearing arms sales and the provision of services and training to foreign countries. Records include clearance requests, logs, security officer nominations, munitions case files, routine public inquiries, chronological files, daily activity reports, advisory group membership files, and administrative files. Also included are electronic copies of documents created using electronic mail and word processing. Proposed for permanent retention are recordkeeping copies of such records as program files, policy files, briefing books, special munitions sales case files, and memorandums of agreement with foreign nations regarding weapons technology development.

11. Department of the Treasury, Office of Enforcement (N1-56-02-2, 9 items, 9 temporary items). Paper and electronic versions of individual student files, class files, and student medical/health files accumulated by the Federal Law Enforcement Training Center. Also included are electronic copies of documents created using electronic mail and word processing.

12. Environmental Protection Agency, Office of Prevention, Pesticides, and Toxic Substances (N1-412-02-6, 2 items, 2 temporary items). Records relating to child-resistant packaging, including such files as requests for information, status reviews of products, copies of **Federal Register** Notices, policy notices, requests for exemptions from regulations, and reports. Also included are electronic copies of records created using electronic mail and word processing.

13. Tennessee Valley Authority, River System Operations and Environment, (N1-142-02-3, 19 items, 9 temporary items). Notes, feature separates, film, scribe sheets, printing negatives, and related material used in creating maps for publication. Also included are electronic copies of records created using electronic mail, word processing, and other office automation applications. Record sets of all printed maps and related indexes are proposed for permanent retention.

Dated: April 11, 2002.

## NATIONAL SCIENCE FOUNDATION

### Advisory Committee for Education and Human Resources; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting.

*Name:* Advisory Committee for Education and Human Resources (#1119).

*Dates/Time:* May 15, 2002, 8:30 a.m.–6 p.m.; May 16, 2002, 8:20 a.m.–3 p.m.

*Place:* National Science Foundation, 4201 Wilson Boulevard, Arlington, VA.

*Type of Meeting:* Open.

*Contact Person:* John B. Hunt, Senior Liaison, ACEHR, Directorate for Education and Human Resources, National Science Foundation, 4201 Wilson Boulevard, Room 805, Arlington, VA 22230, 703-292-8602.

*Summary Minutes:* May be obtained from contact person listed above.

*Purpose of Meeting:* To provide advice and recommendations concerning NSF support for Education and Human Resources.

*Agenda:* Discussion of FY 2002 programs of the Directorate for Education and Human Resources and planning for future activities.

Dated: April 16, 2002.

**Susanne Bolton,**

*Committee Management Officer.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-368]

### Entergy Operations, Inc.; Arkansas Nuclear One, Unit 2; Exemption

#### 1.0 Background

Entergy Operations, Inc. (the licensee) is the holder of Facility Operating License No. NPF-6 which authorizes operation of the Arkansas Nuclear One, Unit 2 (ANO-2) nuclear power plant. The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (NRC, the Commission) now or hereafter, in effect.

The facility consists of a pressurized water reactor located in Pope County, Arkansas.

#### 2.0 Request/Action

Title 10 of the *Code of Federal Regulations* (10 CFR), part 50, Appendix G requires that pressure-temperature (P-T) limits be established for reactor pressure vessels (RPVs) during normal operating and hydrostatic or leak rate testing conditions. Specifically, Appendix G to 10 CFR Part 50 states that “[t]he appropriate requirements on both the pressure-temperature limits and the minimum permissible temperature must be met for all conditions.” Further, Appendix G of 10 CFR Part 50 specifies that the requirements for these limits are based on the application of evaluation procedures given in Appendix G to Section XI of the American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel Code (Code). In this exemption, consistent with the current provisions of 10 CFR 50.55(a), all references to the ASME Code denote the 1995 Edition through the 1996 Addenda of the ASME Code.

In order to address provisions of amendments to the ANO-2 Technical Specification (TS) P-T limit curves, the licensee requested in its submittal dated October 30, 2001, that the staff exempt ANO-2 from application of specific

requirements of Appendix G to 10 CFR Part 50, and substitute use of ASME Code Case N-641. ASME Code Case N-641 permits the use of an alternate reference fracture toughness curve for RPV materials and permits the postulation of a circumferentially-oriented flaw for the evaluation of circumferential RPV welds when determining the P-T limits. The proposed exemption request is consistent with, and is needed to support, the ANO-2 TS amendment that was contained in the same submittal. The proposed ANO-2 TS amendment will revise the P-T limits for heatup, cooldown, and inservice test limitations for the reactor coolant system (RCS) through 32 effective full power years of operation.

#### Code Case N-641

The licensee has proposed an exemption to allow use of ASME Code Case N-641 in conjunction with Appendix G to ASME Section XI, 10 CFR 50.60(a), and 10 CFR part 50, Appendix G, to establish P-T limits for the ANO-2 RPV.

The proposed TS amendment to revise the P-T limits for ANO-2 relies in part on the requested exemption. These revised P-T limits have been developed using the lower bound  $K_{IC}$  fracture toughness curve shown in ASME Section XI, Appendix A, Figure A-2200-1, in lieu of the lower bound  $K_{IA}$  fracture toughness curve of ASME Section XI, Appendix G, Figure G-2210-1, as the basis fracture toughness curve for defining the ANO-2 P-T limits. In addition, the revised P-T limits have been developed based on the use of a postulated circumferentially-oriented flaw for the evaluation of RPV circumferential welds in lieu of the axially-oriented flaw which would be required by Appendix G to Section XI of the ASME Code. The other margins involved with the ASME Section XI, Appendix G process of determining P-T limit curves remain unchanged.

Use of the  $K_{IC}$  curve as the basis fracture toughness curve for the development of P-T operating limits is more technically correct than use of the  $K_{IA}$  curve. The  $K_{IC}$  curve appropriately implements the use of a relationship based on static initiation fracture toughness behavior to evaluate the controlled heatup and cooldown process of a RPV, whereas the  $K_{IA}$  fracture toughness curve codified into Appendix G to Section XI of the ASME Code was developed from more conservative crack arrest and dynamic fracture toughness test data. The application of the  $K_{IA}$  fracture toughness curve was initially codified in
