

Interconnection Agreement to become effective on April 24, 2001.

Copies of the filing were served upon Elizabethtown and the North Carolina Public Utilities Commission.

Comment date: May 15, 2001, in accordance with Standard Paragraph E at the end of this notice.

12. Cobb Electric Membership Corp.

[Docket No. ER01-1860-000]

Take notice that on April 24, 2001, Cobb Electric Membership Corp. (Cobb), a non-profit electric distribution cooperative located in Marietta, Georgia, tendered for filing a petition for authority to sell power at market-based rates, acceptance of its proposed rate schedule, granting of and certain waivers. Cobb requests an effective date for its proposed rate schedule that would be 60 days from the date of the filing of its petition or the date of the order accepting Cobb's rate schedule for filing, whichever is earlier.

Comment date: May 15, 2001, in accordance with Standard Paragraph E at the end of this notice.

13. Southern California Edison Company

[Docket No. ER01-1861-000]

Take notice, that on April 24, 2001, Southern California Edison Company (SCE) tendered for filing the Amended and Restated SCE-CDWR Capacity Exchange Agreement (Agreement) between SCE and the State of California Department of Water Resources (CDWR), which provides for the terms to redefine the Exchange Ratio in Section 6.1.1 of the Agreement.

SCE requests the Agreement be made effective on the date on which FERC accepts the Agreement for filing; provided that, if FERC enters into a hearing to determine whether the Agreement is just and reasonable, the Agreement shall not become effective until the date when an order no longer subject to judicial review has been issued by FERC determining the Agreement to be just and reasonable without changes or modifications unacceptable to either Party.

Copies of this filing were served upon the Public Utilities Commission of the State of California and CDWR.

Comment date: May 15, 2001, in accordance with Standard Paragraph E at the end of this notice.

14. Southern California Edison Company

[Docket No. ER01-1862-000]

Take notice that on April 24, 2001, Southern California Edison Company (SCE) tendered for filing the Mountain

View II Project Interconnection Facilities Agreement (Agreement) between SCE and Mountain View Power Partners II LLC.

SCE requests that the Agreement become effective on April 25, 2001.

Copies of this filing were served upon the Public Utilities Commission of the State of California, Mountain View Power Partners II, LLC, and Mountain View Power Partners 1, LLC.

Comment date: May 15, 2001, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraph

E. Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of these filings are on file with the Commission and are available for public inspection. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance). Comments, protests, and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

Linwood A. Watson, Jr.,

Acting Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6974-3]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; NESHAP for Halogenated Solvent Cleaners/ Halogenated Air Pollution (HAP)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces

that EPA is planning to submit the following continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): Subpart T, National Emission Standards for hazardous Air Pollutants (NESHAP) for Halogenated Solvent Cleaning, OMB number 2060-0273, expires May 31, 2001. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before June 4, 2001.

ADDRESSES: Send comments, referencing ICR No. 1652.04 and OMB Control No. 2060-0273 to the following addresses: Sandy Farmer, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822), 1200 Pennsylvania Avenue, NW., Washington, DC 20460; and to the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Sandy Farmer at EPA by phone at (202) 260-2740, by E-mail at Farmer.sandy@epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1652.04. For technical questions about the ICR contact Acquianetta Delaney at (202) 564-7061.

SUPPLEMENTARY INFORMATION:

Title: NESHAP for Halogenated Solvent Cleaners/Halogenated Hazardous Air Pollutants (HAP), (OMB Control No. 2060-0273; EPA ICR No. 1652.04) expiring May 31, 2001. This is a request for extension of a currently approved collection.

Abstract: This ICR contains recordkeeping and reporting requirements that are mandatory for compliance with 40 CFR 63.460, *et seq.*, Subpart T, National Emission Standards for Hazardous Air Pollutants (NESHAP) for Halogenated Solvent Cleaning. This information notifies EPA when a source becomes subject to the regulations, informs the Agency if a source is in compliance when it begins operation, and informs the Agency if the source remained in compliance during any period of operation. In the Administrator's judgment, emissions of hazardous air pollutants (HAPs) from halogenated solvent cleaners may cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Therefore, NESHAP standards were promulgated for this source category, as required under section 112 of the Clean Air Act.

HAP emissions from halogenated solvent cleaners are the result of inadequate equipment design and work practices.

These standards rely on the proper design and operation of halogenated solvent cleaners such as working-mode covers, freeboard ratio of 1.0, and reduced room draft to reduce solvent emissions from halogenated solvent cleaners. Certain records and reports are necessary to enable EPA to identify sources subject to the standards and to ensure that the standards are being achieved. Owners/operators of halogenated solvent cleaners must provide EPA with an initial notification of existing or new solvent cleaning machines, initial statement of compliance, an annual control device monitoring report (owners/operators of batch vapor and in-line cleaning machines), an annual solvent emission report (owners/operators of batch vapor and in-line cleaning machines complying with the alternative standard), and exceedance of monitoring parameters or emissions. The records that the facilities maintain indicate to EPA whether they are operating and maintaining the halogenated solvent cleaners properly to control emissions. In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on August 17, 2000 (65 FR 50196); no comments were received.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 4 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and

maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/Operators of solvent cleaning machines.

Estimated Number of Respondents: 3,821.

Frequency of Response: Quarterly, Semi-annually, Annually.

Estimated Total Annual Hour Burden: 45,207 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$4,091.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed about. Please refer to EPA ICR No. 1652.04 and OMB Control No. 2060-0273 in any correspondence.

Dated: April 24, 2001.

Oscar Morales,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6974-4]

Agency Information Collection Activities: Submission for OMB Review; Comment Request, Transition Program for Equipment Manufacturers

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Transition Program for Equipment Manufacturers, OMB Control Number 2060-0369, expiration date: April 30, 2001. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before June 4, 2001.

ADDRESSES: Send comments, referencing EPA ICR No. 1826.02 and OMB Control No. 2060-0369 to the following addresses: Sandy Farmer, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822), 1200 Pennsylvania Avenue, NW., Washington, DC 20460-0001; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Sandy Farmer at EPA by phone at (202) 260-2740, by E-mail at farmer.sandy@epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No.1826.02. For technical questions about the ICR contact: Nydia Yanira Reyes-Morales, tel.: (202) 564-9264; fax: (202) 565-2057; or e-mail: reyes-morales.nydia@epa.gov.

SUPPLEMENTARY INFORMATION:

Title: Transition Program for Equipment Manufacturers, EPA ICR Number 1826.02, OMB Control Number 2060-0369, expiration date: April 30, 2001. This is a request for extension of a currently approved collection.

Abstract: In August 1998, EPA established emission standards (Tier I standards) for engines under 37 kW, and tightened existing standards (Tier II standards) for engines above 37 kW. These regulations are likely to cause some engine design changes. During the rulemaking process, some equipment manufacturers expressed concerns about delays in notification from engine manufacturers about engine design changes. These design changes can create problems in fitting the engine to the equipment. Consequently, equipment manufacturers would be unable to sell the volume of equipment they planned for, since they would need to redesign their equipment before any products could be sold. In an effort to provide original equipment manufacturers (OEMs) with some flexibility in complying with the regulations, EPA created the Transition Program for Equipment Manufacturers (TPEM). Under the program, OEMs are allowed to use a number of noncompliant engines (uncertified engines rated below 37 kW or Tier I engines rated at or above 37 kW) in their equipment for up to seven years after the effective date of the standards. Participation in the program is voluntary. Participating OEMs and engine manufacturers who provide the noncompliant engines to the OEMs are required to keep records and submit
