

detection for the identification and quantification of this analyte. The limit of quantitation (LOQ) for bifentazate in corn matrices and processed commodities was 0.01 ppm. The limit of detection (LOD) for the method is set at 0.005 ppm. The method has also been validated by liquid chromatography/mass spectrometry/mass spectroscopy (LC/MS/MS), and used for the confirmation of residues for corn raw agricultural commodities (RAC) and processed commodities. The analytical method for bifentazate and its major metabolite D3598, in animal tissues was designed using the same principles invoked in the plant method, with minor modifications. However, in animal tissue samples, a separate aliquot of the extract was used to determine residues of A1530, and its sulfate (combined) in milk and meat samples (as these metabolites appeared to be significant in the goat metabolism studies). The extract was subjected to acid hydrolysis to convert the sulfate conjugate to A1530, before it was quantified by LC/MS/MS. Another metabolite, D9569, was also monitored in milk by LC/MS/MS. New Exemption from an Inert Tolerance

PP 8E7402. (EPA-HQ-OPP-2008-0652). Falcon Lab, LLC, 1103 Norbee

Drive, Wilmington, DE 19803, proposes to establish an exemption from the requirement of a tolerance in 40 CFR 180.910 and 40 CFR 180.950 for residues of ammonium salts of higher fatty acids, [C₈-C₁₈ saturated and C₈-C₁₂ unsaturated, (CAS No. 84776-33-0)], when used as a pesticide inert ingredient in pesticide formulations in or on all food commodities. Because this petition is a request for an exemption from the requirement of a tolerance, no analytical method is required. Contact: Karen Samek, (703) 347-8825; *samek.karen@epa.gov*.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

[Document Identifier: CMS-10151 and CMS-10152]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Data Collection for Medicare Beneficiaries Receiving Implantable Cardioverter-defibrillator for Primary Prevention of Sudden Cardiac Death; *Use:* The Centers for Medicare and Medicaid Services (CMS) provides coverage for implantable cardioverter-defibrillators (ICDs) for secondary prevention of sudden cardiac death based on extensive evidence showing that use of ICDs among patients with a certain set of physiologic conditions are effective. Accordingly, CMS considers coverage for ICDs reasonable and necessary under Section 1862 (a)(1)(A) of the Social Security Act. However, evidence for use of ICDs for primary prevention of sudden cardiac death is less compelling for certain patients.

To encourage responsible and appropriate use of ICDs, CMS issued a Decision Memo for Implantable Defibrillators on January 27, 2005, indicating that ICDs will be covered for primary prevention of sudden cardiac death if the beneficiary is enrolled in either an FDA-approved category B IDE clinical trial (42 CFR 405.201), a trial

under the CMS Clinical Trial Policy (NCD Manual § 310.1) or a qualifying prospective data collection system (either a practical clinical trial or prospective systematic data collection, which is sometimes referred to as a registry). *Form Number:* CMS-10151 (OMB# 0938-0967); *Frequency:* Reporting—Quarterly; *Affected Public:* Business or other for-profit and not-for-profit institutions; *Number of Respondents:* 1,217; *Total Annual Responses:* 50,000; *Total Annual Hours:* 12,500.

2. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Data collection for Medicare Beneficiaries Receiving FDG Positron Emission Tomography (PET) for Brain, Cervical, Ovarian, Pancreatic, Small Cell Lung, and All Other Cancers *Use:* In the Decision Memo #CAG-00181N issued on January 27, 2005, CMS determined that the evidence is sufficient to conclude that for Medicare beneficiaries receiving FDG positron emission tomography (PET) for brain, cervical, ovarian, pancreatic, small cell lung, and testicular cancers is reasonable and necessary only when the provider is participating in and patients are enrolled in a systematic data collection project. CMS will consider prospective data collection systems to be qualified if they provide assurance that specific hypotheses are addressed and they collect appropriate data elements. The data collection should include baseline patient characteristics; indications for the PET scan; PET scan type and characteristics; FDG PET results; results of all other imaging studies; facility and provider characteristics; cancer type, grade, and stage; long-term patient outcomes; disease management changes; and anti-cancer treatment received. *Form Number:* CMS-10152 (OMB# 0938-0968); *Frequency:* Reporting—On occasion; *Affected Public:* Business or other for-profit and not-for-profit institutions; *Number of Respondents:* 2,000; *Total Annual Responses:* 50,000; *Total Annual Hours:* 4,167.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS' Web Site at <http://www.cms.hhs.gov/PaperworkReductionActof1995>, or E-mail your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@cms.hhs.gov, or call the Reports Clearance Office on (410) 786-1326.
