SUPPLEMENTARY INFORMATION:

I. Abstract

Section 7(g) of the EAA, as amended by the Export Administration Amendments Act of 1985 (Public Law 99-64), exempts from foreign policy controls exports of donations to meet basic human needs. Since the enactment of Public Law 99-74, an exporter had to apply for a bulk Humanitarian license, permitting the export of goods identified in a supplement to the regulation without restriction as to quantity or number of shipments to any of the embargoed destinations. New License Exception procedures contained in this regulation reduce the regulatory burden on these exporters by enabling them to make humanitarian donations with only minimal recordkeeping.

SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration's Office of Environmental Technologies Industries (ETI) office is the principal resource and key contact point within the U.S. Department of Commerce for American environmental technology companies. ETI's goal is to facilitate and increase exports of environmental technologies, goods and services by providing support and guidance to U.S. exporters. One aspect of increasing exports is to reduce trade barriers and non-tariff measures. ETI works closely with the Office of the U.S. Trade Representative on trade negotiations and trade liberalization initiatives. The information collected by this survey will be used to support these projects and enable ETI to maintain a current, up-to-date list of non-tariff measures that create trade barriers for U.S. exports of environmental goods and services.
