

the change became effective under the Ethics Act.

Regulatory Flexibility Act

As Director of the Office of Government Ethics, I certify under the Regulatory Flexibility Act (5 U.S.C. chapter 6) that this rulemaking will not have a significant economic impact on a substantial number of small entities because it primarily affects Federal employees.

Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C. chapter 35) does not apply because this amendatory rulemaking itself does not contain information collection requirements that require the approval of the Office of Management and Budget.

Unfunded Mandates Reform Act

For purposes of the Unfunded Mandates Reform Act of 1995 (2 U.S.C. chapter 25, subchapter II), this final rule will not significantly or uniquely affect small governments and will not result in increased expenditures by State, local and tribal governments, in the aggregate, or by the private sector, of \$100 million or more (as adjusted for inflation) in any one year.

Congressional Review Act

The Office of Government Ethics has determined that this amendatory rulemaking is a nonmajor rule under the Congressional Review Act (5 U.S.C. chapter 8) and will submit a report thereon to the U.S. Senate, House of Representatives and Government Accountability Office in accordance with that law at the same time this rulemaking document is sent to the Office of the Federal Register for publication in the **Federal Register**.

Executive Order 12866

In promulgating these technical amendments, OGE has adhered to the regulatory philosophy and the applicable principles of regulation set forth in section 1 of Executive Order 12866, Regulatory Planning and Review. These amendments have not been reviewed by the Office of Management and Budget under that Executive Order, since they are not deemed “significant” thereunder.

Executive Order 12988

As Director of the Office of Government Ethics, I have reviewed this final amendatory regulation in light of section 3 of Executive Order 12988, Civil Justice Reform, and certify that it meets the applicable standards provided therein.

[EPA–R04–OAR–2013–0760; FRL–9909–91–R04]

Approval and Promulgation of Implementation Plans; State of Florida: New Source Review—Prevention of Significant Deterioration

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve a revision to the Florida State Implementation Plan (SIP), submitted by the Florida Department of Environmental Protection (FDEP), Division of Air Resources Management, to EPA on December 19, 2013. The SIP revision modifies Florida's New Source Review (NSR) Prevention of Significant Deterioration (PSD) permitting regulations to provide FDEP with the authority to issue PSD permits governing greenhouse gas (GHG) emissions, to establish appropriate emission thresholds for determining which new stationary sources and modifications to existing stationary sources become subject to Florida's PSD permitting requirements for their GHG emissions, and to facilitate the implementation of GHG Plantwide Applicability Limits (PALs) by allowing consideration of GHG PALs in determining whether GHGs are "subject to regulation." The changes to Florida's regulations also update Florida's SIP to incorporate provisions addressing

issuance of GHG PALs on a carbon dioxide equivalent (CO₂e) basis. EPA is taking final action to approve Florida's December 19, 2013 SIP revision because it is in accordance with the Clean Air Act (CAA or Act) and EPA regulations regarding the PSD permitting program. Concurrent with this final approval, EPA is rescinding the GHG PSD Federal Implementation Plan (FIP) for Florida that was put in place on December 30, 2010, to ensure the availability of a permitting authority for GHG permitting in Florida.

DATES: This rule is effective May 19, 2014.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR–2013–0760. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, i.e., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303–8960. EPA requests that if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday from 8:30 a.m. to 4:30 p.m., excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: For information regarding the Florida SIP, contact Ms. Twunjala Bradley, Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303–8960. I. Background

Florida's December 19, 2013 SIP revision provides the State the authority to regulate GHG¹ emissions under its PSD program and establishes appropriate emission thresholds for determining which new stationary sources and modification projects become subject to PSD permitting requirements for their GHG emissions as promulgated in the GHG Tailoring Rule, 75 FR 31514 (June 3, 2010).² These GHG PSD applicability provisions became State effective on October 23, 2013. Additionally, Florida's December 19, 2013 submission reflects the fact that Florida has updated State law to incorporate by reference³ certain changes made to 40 CFR part 52 related to the implementation of GHG PALs that were promulgated in EPA's July 12, 2012, Step 3 GHG Tailoring Rule.⁴ This change to state law results in an update to the incorporation by reference of the portions of 40 CFR 52.21 cited in Florida's existing SIP-approved PAL regulations, such that those provisions now include provisions of 40 CFR 52.21 that, among other things, address issuance of GHG PALs on a CO₂e basis in addition to the available mass-basis. EPA's final approval of Florida's December 19, 2013 SIP revision includes approval of Florida's GHG PSD Permit Transition Plan, under which

¹ Throughout this document, where appropriate, EPA will use the acronyms "GHG" and "GHGs" to express the term greenhouse gas or greenhouse gases, respectively.

² "Prevention of Significant Deterioration and Title V Greenhouse Gas Tailoring Rule; Final Rule," 75 FR 31514 (June 3, 2010) (GHG Tailoring Rule).

³ "Prevention of Significant Deterioration and Title V Operating Permit Greenhouse Gas (GHG) Tailoring Rule Step 3 and GHG Plantwide Applicability Limits," 77 FR 41051 (July 12, 2012) (Step 3 GHG Tailoring Rule). Step 3 of the Tailoring Rule included revisions to the regulations at 40 CFR 52.21 that allow GHG PALs under those regulations to be established on a CO₂e basis in addition to the previously available mass basis and allow a GHG-only source to obtain a GHG PAL under those regulations while still maintaining its minor source status, so long as it complies with its PAL and its GHG emissions remain below the PAL. See 77 FR 41051.
