SUPPLEMENTARY INFORMATION: *Context:* The U.S. Global Change Research Program (USGCRP) is mandated under the Global Change Research Act (GCRA) of 1990 to conduct a quadrennial National Climate Assessment (NCA). Under its current decadal strategic plan (<http://go.usa.gov/3qGU4>), USGCRP is building sustained assessment capacity. The sustained assessment supports the Nation's ability to understand, anticipate, and respond to risks and potential impacts brought about by global environmental change. As part of the ongoing NCA process, the 2nd State of the Carbon Cycle Report (SOCCR–2) is being developed to inform the assessment. The last (3rd) NCA (2014) (NCA3: <http://nca2014.globalchange.gov>) and the process to develop it provided a foundation for subsequent activities and reports. The SOCCR–2 assessment provides an update to the carbon cycle science information presented in the 2014 NCA and the 2007 State of the Carbon Cycle Report, a Scientific Assessment Product (SAP 2.2) that directly informed the 2nd NCA. The SOCCR–2 assessment provides updated carbon cycle science findings and projections, and is an important input to the authors of the next quadrennial NCA, expected in 2018.

The 2nd State of the Carbon Cycle Report (SOCCR–2) is a product of the U.S. Global Change Research Program (USGCRP), and is organized and led by an interagency team, the Carbon Cycle Interagency Working Group. The draft assessment was written by Federal and non-Federal authors identified via an Open Call for nominations (www.federalregister.gov/documents/2016/02/12/2016-02927/request-for-public-engagement-in-the-interagency-special-report-2nd-state-of-the-carbon-cycle-report). An interagency Federal Steering Committee selected authors based on their demonstrated subject

matter expertise, relevant publications, and knowledge of specific topics designated in an outline included in the SOCCR–2 prospectus that can be found through a link on the SOCCR–2 (<https://www.carboncyclescience.us/state-carbon-cycle-report-soccr>). This assessment responds to the 1990 Congressional mandate to periodically produce National Climate Assessments and to assist the nation in understanding, assessing, predicting, and responding to global change. The report adheres to the Information Quality Act requirements (http://www.cio.noaa.gov/services_programs/info_quality.html) for quality, transparency, and accessibility as appropriate for a Highly Influential Scientific Assessment (HISA).

Done at Washington, DC, on November 3, 2017.

Sonny Ramaswamy,

Director, National Institute of Food and Agriculture.

DATES: Comments on this notice must be received by January 8, 2018 to be assured consideration.

Title: Direct Single Family Housing Loans and Grants.

OMB Number: 0575-0172.

Expiration Date of Approval: March 31, 2018.

Type of Request: Extension of a currently approved information collection.

Abstract: Through its direct single family housing loan and grant programs (specifically the Sections 502 and 504 programs), RHS provides eligible applicants with financial assistance to own adequate but modest homes in rural areas. The financing and servicing is provided directly by RHS. The Section 502 direct loan program provides 100 percent loan financing to assist low- and very low-income applicants purchase modest homes in eligible rural areas by providing payment assistance to increase an applicant's repayment ability. The Section 504 loan program provides one percent interest rate loans to very low-income homeowners in eligible rural areas to repair, improve, or modernize their home or to remove health and safety hazards. The Section 504 grant program provides grants to elderly very low-income homeowners in eligible rural areas to remove health and safety hazards, or accessibility barriers from their home, often in conjunction with a Section 504 loan.

Applicants must provide the Agency with a uniform residential loan application and supporting documentation (e.g. verification of income, assets, liabilities, etc.) when applying for assistance. The information requested regarding the applicant and the property is vital in order for the Agency to make sound eligibility and underwriting decisions that comply with the laws and regulations that govern the programs. The information requested is comparable to that required by any public or private mortgage lender.

When servicing loans, RHS offers servicing options that are standard to the industry. In addition, RHS offers unique servicing options (e.g. payment subsidies and payment moratoriums) and is required to take unique servicing actions (e.g., review borrowers for their ability to refinance with private credit). Borrowers must provide the Agency with pertinent information when a servicing option/action is requested/required in order for the Agency to make sound servicing decisions that comply with the laws and regulations that govern the programs.
