

flexibility in defining the term “windward wall” when a total enclosure is not impacted by ambient wind. The regulatory text was unclear where to place monitors when ambient wind does not affect the total enclosure. Petitioners requested clarification in how to monitor irregularly shaped enclosures or enclosures that are divided into multiple areas all under negative pressure. Petitioners also asked the EPA to clarify that data from differential pressure monitors should be used to calculate 15-minute averages. Petitioners also stated that the EPA should clarify the meaning of “accuracy” in 40 CFR 63.548(k)(3).

II. Direct Final Rule

A direct final rule that would make the same changes as those proposed in this document appears in the Rules and Regulations section of this **Federal Register**. The EPA is taking direct final action on these amendments because we view the amendments as noncontroversial and anticipate no significant adverse comments. The EPA has explained our reasons for the amendments in the direct final rule. If no significant adverse comments are received, no further action will be taken on the proposal, and the direct final rule will become effective as provided in that action.

If the EPA receives significant adverse comments, we will withdraw only those provisions on which we received those comments. The EPA will publish a timely withdrawal in the **Federal Register** indicating which provisions will become effective, and which provisions are being withdrawn. If part or the entire direct final rule in the Rules and Regulations section of this **Federal Register** is withdrawn, all comments pertaining to those provisions will be addressed in a subsequent final rule based on these proposed amendments. The EPA will not institute a second comment period on the subsequent final action. Any parties interested in commenting must do so at this time.

The changes to the regulatory text proposed in this notice are identical to those for the direct final rule published in the Rules and Regulations section of this **Federal Register**. For further information, including the detailed rationale for the proposal and the regulatory revisions, see the direct final rule published in a separate part of this **Federal Register**.

III. Statutory and Executive Order Reviews

For a complete discussion of all of the administrative requirements applicable

to this action, see the direct final rule in the “rules and Regulations” section of this **Federal Register**.

44 CFR Part 67

[Docket ID FEMA–2012–0003; Internal Agency Docket No. FEMA–B–1241]

Proposed Flood Hazard Determinations for Bullitt County, Kentucky and Incorporated Areas

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed notice; withdrawal.

SUMMARY: The Federal Emergency Management Agency (FEMA) is withdrawing its proposed notice concerning proposed flood hazard determinations, which may include the addition or modification of any Base Flood Elevation, base flood depth, Special Flood Hazard Area boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps, and where applicable, in the supporting Flood Insurance Study reports for Bullitt County, Kentucky and Incorporated Areas.

DATES: This withdrawal is effective January 3, 2014.

ADDRESSES: You may submit comments, identified by Docket No. FEMA–B–1241, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646–4064, or (email) Luis.Rodriguez3@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C

Street SW., Washington, DC 20472, (202) 646–4064, or (email) Luis.Rodriguez3@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: On March 28, 2012, FEMA published a proposed notice at 77 FR 18837, proposing flood hazard determinations in Bullitt County, Kentucky. FEMA is withdrawing the proposed notice.

Authority: 42 U.S.C. 4104; 44 CFR 67.4.

Date: November 22, 2013.

Roy E. Wright,

Deputy Associate Administrator for Mitigation, Department of Homeland Security, Federal Emergency Management Agency.

[Docket No. 130903776–3776–01]

RIN 0648–BD66

Fisheries of the Exclusive Economic Zone Off Alaska; Modifications to Identification Markings on Fishing Gear Marker Buoys

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes to revise the identification marking requirements for fishing gear marker buoys (buoys) used in Federal waters off Alaska. This proposed rule would eliminate the requirement that hook-and-line, longline pot, and pot-and-line buoys be marked with the vessel’s name. The requirement to mark buoys with either the vessel’s Federal fisheries permit number or Alaska Department of Fish and Game (ADF&G) number remains in effect. This action is needed to remove a regulatory requirement that is unnecessary. This action is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (BSAI Groundfish FMP), the Fishery Management Plan for Groundfish of the Gulf of Alaska (GOA Groundfish FMP), and other applicable laws.
