

days of publication of this notice in the **Federal Register**.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's assumption that reimbursement of antidumping duties occurred and subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Orders ("APOs")

This notice also serves as a reminder to parties subject to APOs of their responsibility concerning the return or destruction of proprietary information disclosed under an APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This notice is in accordance with section 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4) of the Department's regulations.

Dated: September 11, 2006.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 091806C]

Endangered Species; File No. 1591

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that NMFS Southwest Fisheries Science Center (Stephen Reilly, Responsible Official), 8604 La Jolla Shores Drive, La Jolla, CA 92038, has applied in due form for a permit to take green (*Chelonia mydas*), loggerhead (*Caretta caretta*), and olive ridley (*Lepidochelys olivacea*)

sea turtles for purposes of scientific research.

DATES: Written, telefaxed, or e-mail comments must be received on or before October 23, 2006.

ADDRESSES:

The application and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; and Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213; phone (562)980-4001; fax (562)980-4018.

Written comments or requests for a public hearing on this application should be mailed to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate.

Comments may also be submitted by facsimile at (301)427-2521, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period.

Comments may also be submitted by e-mail. The mailbox address for providing e-mail comments is *NMFS.Pr1Comments@noaa.gov*. Include in the subject line of the e-mail comment the following document identifier: File No. 1591.

FOR FURTHER INFORMATION CONTACT:

Patrick Opay or Amy Hapeman, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

The purpose of this project would be to continue long-term monitoring of the status of sea turtles in San Diego Bay, California. Researchers would study the species present at this temperate foraging area to determine their abundance, size ranges, growth, sex ratio, health status, diving behavior, local movements, habitat use, and migration routes. Turtles would be captured using entanglement nets and each animal would be flipper and passive integrated transponder (PIT) tagged, measured, weighed, sexed,

blood sampled, and tissue sampled. A subset of animals be lavaged and would have transmitters attached to their carapace. A primary goal of the research would be to integrate data from genetic analysis, flipper tagging, and satellite telemetry to identify nesting beach origins of turtles occurring in San Diego Bay and contribute to the overall understanding of sea turtle stock structure in the Pacific Ocean. Researchers would compare current data with those collected in San Diego Bay since 1989 to determine growth rates of juveniles and adults, determine tag retention rates, and examine population abundance trends. Genetic studies based on blood and tissue samples are part of an international collaboration to define stock structure of sea turtles in the Pacific. Up to 50 green, 5 loggerhead, and 5 olive ridley sea turtles would be taken annually. The permit would be issued for 5 years.

Dated: September 18, 2006.

P. Michael Payne,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 082106B]

Endangered and Threatened Species: Notice of Availability of the Status Review for Atlantic Salmon in the United States

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Availability of the Status Review of Atlantic Salmon.

SUMMARY: A Biological Review Team (BRT) consisting of biologists from the Maine Atlantic Salmon Commission, Penobscot Indian Nation, NMFS, and U.S. Fish and Wildlife Service (FWS) have completed a Status Review of Atlantic salmon (Status Review for Anadromous Atlantic Salmon (*Salmo salar*)) in the United States.

ADDRESSES: Requests for a copy of the Status Review should be addressed to Marcia Hobbs, NMFS, Northeast Regional Office, Protected Resources Division, One Blackburn Drive Gloucester, MA 01930. A copy of the Status Review can also be downloaded from the following web address: <http://>
