#### SUPPLEMENTARY INFORMATION:

##### Background

Under the authority of the Strategic  
and Critical Materials Stock Piling  
Revision Act of 1979, as amended (the  
Stock Piling Act) (50 U.S.C. 98 *et seq.*),  
the Department of Defense's Defense  
Logistics Agency (DLA), as National  
Defense Stockpile Manager, maintains a  
stockpile of strategic and critical  
materials to supply the military,  
industrial, and essential civilian needs  
of the United States for national  
defense. Section 9(b)(2)(G)(ii) of the  
Stock Piling Act (50 U.S.C.  
98h(b)(2)(H)(ii)) authorizes the National  
Defense Stockpile Manager to fund  
material research and development  
projects to develop new materials for  
the stockpile.

Section 3314 of the Fiscal Year (FY)  
1993 National Defense Authorization  
Act (NDAA) (50 U.S.C. 98h-1) formally  
established a Market Impact Committee  
(the Committee) to "advise the National

Defense Stockpile Manager on the  
projected domestic and foreign  
economic effects of all acquisitions and  
disposals of materials from the stockpile  
. . . ." The Committee must also  
balance market impact concerns with  
the statutory requirement to protect the  
U.S. Government against avoidable loss.

The Committee is comprised of  
representatives from the Departments of  
Commerce, State, Agriculture, Defense,  
Energy, the Interior, the Treasury, and  
Homeland Security, and is co-chaired  
by the Departments of Commerce and  
State. The FY 1993 NDAA directs the  
Committee to consult with industry  
representatives that produce, process, or  
consume the materials stored in or of  
interest to the National Defense  
Stockpile Manager.

As the National Defense Stockpile  
Manager, the DLA must produce an  
Annual Materials Plan ("AMP")  
proposing the maximum quantity of  
each listed material that may be  
acquired, disposed of, upgraded, or sold  
by the DLA in a particular fiscal year.  
In Attachment 1 to this notice, the DLA  
lists the quantities and type of activity  
(potential acquisition, potential  
disposal, potential upgrade, or potential  
sale) associated with each material in its  
proposed FY 2017 AMP. The quantities  
listed in Attachment 1 are not  
acquisition, disposal, upgrade, or sales  
target quantities, but rather a statement  
of the proposed maximum quantity of  
each listed material that may be  
acquired, disposed of, upgraded, or sold  
in a particular fiscal year by the DLA,  
as noted. The quantity of each material  
that will actually be acquired or offered  
for sale will depend on the market for  
the material at the time of the  
acquisition or offering, as well as on the  
quantity of each material approved for  
acquisition, disposal, or upgrade by  
Congress.

The Committee is seeking public  
comments on the potential market  
impact associated with the proposed FY  
2017 AMP as enumerated in Attachment  
1. Public comments are an important  
element of the Committee's market  
impact review process.

#### Submission of Comments

The Committee requests that  
interested parties provide written  
comments, supporting data and  
documentation, and any other relevant  
information on the potential market  
impact of the quantities associated with  
the proposed FY 2017 AMP. All  
comments must be submitted to the  
addresses indicated in this notice. All  
comments submitted through email  
must include the phrase "Market Impact
