

capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Wallace Environmental Testing Laboratories, Inc. of Houston, Texas ("WETL") (Registered Importer 90-005) petitioned NHTSA to decide whether 1998 Chrysler Grand Voyager MPVs originally manufactured for sale in the European market are eligible for importation into the United States. NHTSA published notice of the petition on November 19, 2001 (66 FR 58003) to afford an opportunity for public comment. The reader is referred to that notice for a thorough description of the petition. No comments were received in response to the notice of the petition. Based on its review of the information submitted by the petitioner, NHTSA has decided to grant the petition.

Vehicle Eligibility Number for Subject Vehicles

The importer of a vehicle admissible under any final decision must indicate on the form HS-7 accompanying entry the appropriate vehicle eligibility number indicating that the vehicle is eligible for entry. VSP-373 is the vehicle eligibility number assigned to vehicles admissible under this notice of final decision.

Final Decision

Accordingly, on the basis of the foregoing, NHTSA hereby decides that 1998 Chrysler Grand Voyager MPVs that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards are substantially similar to 1998 Chrysler Grand Voyager MPVs originally manufactured for sale in the United States and certified under 49 U.S.C. 30115, and are capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

Description: This submission covers an existing regulation and involves no change to the regulation or to the information collection. Section 22.6 requires a national bank to use and maintain a copy of the Standard Flood Hazard Determination Form developed by the Federal Emergency Management Agency (FEMA).

Section 22.7 requires a national bank or its loan servicer, if a borrower has not obtained flood insurance, to notify the borrower to obtain adequate flood insurance coverage or the bank or servicer will purchase flood insurance on the borrower's behalf.

Section 22.9 requires a national bank making a loan secured by a building or a mobile home located in a special flood hazard area to advise the borrower and the loan servicer whether the property located in a special flood hazard area, whether flood insurance on the property securing the loan is required, whether flood insurance is available under the National Flood Insurance Program, and if Federal disaster relief may be available in the event of flooding. The bank must maintain a record of the borrower and loan servicer's receipts of these notices.

Section 22.10 requires a national bank making a loan secured by a building or a mobile home located in a special flood hazard area to notify FEMA of the identity of the servicer, and of any change in servicers.
