RIN 0579-AB80

Revision of Fruits and Vegetables Import Regulations

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Proposed rule; reopening of comment period.

SUMMARY: We are reopening the comment period for our proposed rule to revise and reorganize the regulations pertaining to the importation of fruits and vegetables to consolidate requirements of general applicability and eliminate redundant requirements, update terms and remove outdated requirements and references, update the regulations that apply to importations into territories under U.S. administration, and make various editorial and nonsubstantive changes to regulations to make them easier to use. We also proposed to make substantive changes to the regulations, including: Establishing criteria within the regulations that, if met, would allow us to approve certain new fruits and vegetables for importation into the United States and to acknowledge pest-free areas in foreign countries more effectively and expeditiously; doing away with the practice of listing specific commodities that may be imported subject to certain types of phytosanitary measures; and providing for the issuance of special use permits for fruits and vegetables. The proposed changes are intended to simplify and expedite our processes for approving certain new imports and pest-free areas while continuing to allow for public

participation in the processes. This action will allow interested persons additional time to prepare and submit comments.
