Endangered Species Protection Program Field Implementation

AGENCY: Environmental Protection Agency (EPA or Agency).

ACTION: Notice of proposed field implementation approach and request for comment.

SUMMARY: EPA's Office of Pesticide Programs is describing, and requesting comment on, implementation of its Endangered Species Protection Program (ESPP, or the Program). The goal of the ESPP is to carry out responsibilities under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) in compliance with the Endangered Species Act (ESA), while at the same time not placing unnecessary burden on agriculture and other pesticide users. This Notice describes how EPA proposes to implement its responsibilities under section 7(a)(2) of ESA by completing and upgrading

County Bulletins, amending pesticide labels to reference County Bulletins, and enhancing monitoring programs.

Regulations found at 50 CFR part 402 acknowledge that there may be Federal programs for which revisions to standard regulatory processes could result in more effective and efficient coordination among Federal agencies and thus, more effective and efficient protection of listed species. As such, those regulations (50 CFR part 402) allow Federal agencies to establish alternate procedures, applicable to specific Federal programs, for satisfying the provisions of ESA section 7(a)(2). Those alternate procedures are known as counterpart regulations.

Through a separate Advance Notice of Proposed Rulemaking (ANPR) to be issued on or about the same date as this Notice, EPA, the Department of the Interior (DOI), and the Department of Commerce (DOC) are seeking public input on ways that such counterpart regulations could improve the ESA consultation process with respect to pesticide registrations. Similarly, implementing regulations under FIFRA may be revised to ensure a more effective program.

The docket for this Notice (docket identification number OPP-2002-0311) includes a summary of the current technical review and consultation approaches employed by the Agency, and the standard evaluation procedure used for ecological risk assessments. That information has been subject to public comment in the past, has been used during EPA's Interim Endangered Species Protection Program, and will continue to be used until the Agency, DOI and DOC take comment on these aspects of the Program through the ANPR and modify them as appropriate.

DATES: Comments, identified by docket ID number OPP-2002-0311, must be received on or before March 3, 2003.

ADDRESSES: Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I. of this Notice.
