

closings of Federal Reserve Banks or the New York Stock Exchange. These waivers of redemption restrictions along with the next day payment requirement have been established to maintain adequate liquidity of margin collateral and are also intended to be consistent with the redemption conditions contained in CFTC Rule 1.25.⁹

Valuation

OCC will require funds to perform a net asset value computation at least once per day with the dissemination of such computation to be made available to OCC no later than 9:00AM central time the following day. Given the diversified nature of eligible fund investments as well as the investment duration limitations, a daily computation of net asset value appears reasonable. OCC nevertheless proposes, under proposed Rule 604(b)(4), a 2% haircut on the current market value of fund shares. The 2% haircut was selected for consistency with the treatment of similar assets under the net capital rule.¹⁰

OCC's Security Interest

As in the case of other securities held as collateral, OCC will require that clearing members give OCC a first priority perfected security interest in deposited fund shares. Because shares in money market funds are typically not issued in certificated form, ownership is established by registration of the securities on the books of the fund or its transfer agent. OCC can ordinarily obtain a perfected security interest in fund shares registered in the name of a clearing member by execution of the fund's standard three-party agreement among OCC, the clearing member, and the fund or its transfer agent.

In addition, to preclude a situation whereby a clearing member secures its obligations to OCC with collateral managed and within the control of that clearing member or a related party, an association restriction is proposed in Rule 604(b)(3)(iii). This restriction is consistent with current OCC rules regarding the deposit of government securities, debt or equity issues, or letters of credit as margin collateral.¹¹ This standard may be waived if the issuing institution can demonstrate that an acceptable arrangement has been

made for the control of underlying portfolio investments and for the processing of OCC redemption requests by a third party.

One additional point is worth noting even though it is not related specifically to money market fund shares. The provisions formerly in Rule 604(d)(2), which require compliance with the Commission's Rule 15c3-3 when applicable, have been moved so that they apply not only to equity and debt securities but to all securities deposited as margin under Rule 604(b). A sentence has been added to require compliance with the CFTC's customer protection regime when securities are deposited with respect to futures accounts.

OCC believes that the proposed rule change is consistent with the requirements of Section 17A of the Securities Exchange Act of 1934, as amended, because it enhances the efficiency of the clearing system while safeguarding funds and securities by permitting clearing members to collateralize their obligations to OCC with an additional form of highly liquid assets of stable value.

(B) Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change would impose any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others
