

terminal, and alternative pipeline routes.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the project. By becoming a commentor, your concerns will be addressed in the EIS and considered by the Commission. You should focus on the potential environmental effects of the proposal, alternatives to the proposal (including alternative locations/routes), and measures to avoid or lessen environmental impact. The more specific your comments, the more useful they will be. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your letter to: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426.
- Label one copy of the comments for the attention of Gas Branch 2.
- Reference Docket Nos. CP04-38-000 *et al.* and CP04-47-000 on the original and both copies.
- Mail your comments so that they will be received in Washington, DC on or before March 22, 2004.

Please note that we are continuing to experience delays in mail deliveries from the U.S. Postal Service. As a result, we will include all comments that we receive within a reasonable time frame in our environmental analysis of this project. However, the Commission strongly encourages you to file your comments electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link and the link to the User's Guide. Before you can file comments you will need to create a free account, which can be created by clicking on "Login to File" and then "New User Account." You will be asked to select the type of filing you are making. This filing is considered a "Comment on Filing."

Public Scoping Meetings and Site Visit

In addition to or in lieu of sending written comments, we invite you to attend a public scoping meeting that we will conduct in the area. The location and time for this meeting is listed below:

March 11, 2004, 7 p.m., Johnson Bayou Recreation Center, 135 Berwick Road, Cameron, LA 70631, telephone: 337-569-2204.

The public scoping meeting is designed to provide state and local

agencies, interested groups, affected landowners, and the general public with more detailed information and another opportunity to offer comments on the proposed project. Interested groups and individuals are encouraged to attend the meetings and to present comments on the environmental issues they believe should be addressed in the EIS. Transcripts of the meetings will be made so that your comments are accurately recorded.

We will also be conducting a limited site visit to the LNG terminal site and pipeline route on the day of the meeting. Anyone interested in participating in the site visit should meet at the Johnson's Bayou Recreation Center at 8 a.m. on March 11, 2004. Participants must provide their own transportation. For additional information, please contact the Commission's Office of External Affairs at 1-866-208 FERC (3372).

Becoming an Intervenor

In addition to involvement in the EIS scoping process, you may want to become an official party to the proceeding known as an "intervenor". Intervenor play a more formal role in the process. Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must provide 14 copies of its filings to the Secretary of the Commission and must send a copy of its filings to all other parties on the Commission's service list for this proceeding. If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's rules of practice and procedure (18 CFR 385.214) (see appendix 2).⁶ Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

Environmental Mailing List

If you do not want to send comments at this time but still want to remain on our mailing list, please return the Mailing List Form included in appendix 3. If you do not return this form or send

in written comments, you will be taken off the mailing list.
