

U.S. bumpers instead of modifying them." Expressing a lack of understanding of the phrase "at this time," as used in G&K's letter, FNA asserted that the agency should require the replacement of the bumpers on all nonconforming 2002 Ferrari 360s with U.S.-model bumpers, and should not permit G&K or other importers to change their means for conforming the vehicles to the standard at some undisclosed future time.

After it was given an opportunity to respond to FNA's comments, G&K requested that the 2002 model be accorded import eligibility on the same terms as the 2001 model.

For the reader's convenience, those terms are set forth below with respect to each standard that was discussed in the eligibility decision for the 2001 Ferrari 360:

Standard No. 108 Lamps, Reflective Devices, and Associated Equipment: Modification of the tail lamp assembly wiring on the non-U.S. certified vehicle so that the tail lamps will operate in the same manner as those on the U.S. certified version.

Standard No 118 Power-Operated Window Systems: Installation of a relay to the power window system so that the power windows will not operate when the ignition switch is in the "off" position.

Standard No. 201 Occupant Protection in Interior Impacts: Replacement of the occupant compartment padding components with U.S.-model components as necessary to meet the upper interior component requirements of the standard.

Standard No. 208 Occupant Crash Protection: Replacement of seat belts and modification or replacement of the bumpers with U.S.-model components.

Standard No. 225 Child Restraint Anchorage Systems: Installation of U.S.-model top tether anchorages for child restraints on the rear frame of the non-U.S. certified vehicles.

Standard No. 301 Fuel System Integrity: (a) Replacement of the fuel/vapor separator, rollover valve, filler neck, vapor lines, evaporative (charcoal) canister, air pump, and associated hardware on non-U.S. certified versions of the vehicle to make them identical to those in the U.S. certified version; (b) modification of the U.S.-model filler neck so that it can be attached to the non-U.S.-model tank; (c) relocation of the charcoal canister, air pump, fuel filler neck, and rollover valve so that they are in essentially the same position as those components found on the U.S. certified vehicle.

In the eligibility decision for the 2001 Ferrari 360, the agency noted that these

modifications would entail the replacement, with U.S.-model parts, of all non-U.S.-model parts except for the fuel tanks and bumpers that are necessary to bring non-U.S. certified Ferrari 360 vehicles into compliance with the applicable Federal Motor Vehicle Safety Standards and with the Bumper Standard in part 581.

NHTSA has considered FNA's comments and G&K's response. In view of FNA's assertion that non-U.S. certified 2002 Ferrari 360 passenger cars manufactured before September 1, 2002, should be judged on the same terms, and conformed in the same manner, as set forth in the agency's eligibility decision for the 2001 version of the vehicle, and G&K's request that the 2002 version be granted import eligibility on the same terms as the 2001 version, NHTSA has decided to grant the petition. The agency notes, however, that on account of the petitioner's stated intention to replace the bumpers on non-U.S. certified 2002 Ferrari 360 passenger cars manufactured before September 1, 2002, with U.S.-model components, those bumpers will have to be replaced, and not merely modified to conform to the Bumper Standard in 49 CFR part 581, as was allowed for the 2001 version of the vehicle.

Vehicle Eligibility Number for Subject Vehicles

The importer of a vehicle admissible under any final decision must indicate on the form HS-7 accompanying entry the appropriate vehicle eligibility number indicating that the vehicle is eligible for entry. VSP-402 is the vehicle eligibility number assigned to vehicles admissible under this notice of final decision.

Final Decision

Accordingly, on the basis of the foregoing, NHTSA hereby decides that 2002 Ferrari 360 Passenger Cars manufactured before September 1, 2002, that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards are substantially similar to 2002 Ferrari 360 Passenger Cars manufactured before September 1, 2002, that were originally manufactured for importation into and sale in the United States and certified under 49 U.S.C. 30115, and are capable of being readily altered to conform to all applicable Federal motor vehicle safety standards.

SUPPLEMENTARY INFORMATION:

Title: Native American CDFI Development (NACD) Program Application.

OMB Number: 1559-0013.

Abstract: The Department of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001

(Pub. L. 106-377) authorizes the Fund to provide technical assistance (TA) to promote economic development in Native American, Alaska Native and/or Native Hawaiian communities by creating new CDFIs or building the capacity of existing CDFIs that serve Native American, Alaska Native or Native Hawaiian communities. The Consolidated Appropriations Resolution, 2003 (Pub. L. 108-7) authorizes the Fund to provide financial assistance, technical assistance and training programs to benefit Native American, Alaska Native, and Native Hawaiian communities in the coordination of community development strategies designed to increase access to equity investments and loans for development activities.

The NACD Program specifically provides TA to two categories of entities that propose to establish a new CDFI(s) that will serve a Native American, Alaska Native or Native Hawaiian population(s): Category (1) including Tribes, Tribal Entities, or Non-Profit Organizations that primarily serve Native American and Alaska Native and/or Native Hawaiian populations; and Category (2) including TA providers or other suitable providers.

SUPPLEMENTARY INFORMATION:

Title: The Community Development Financial Institutions Program—Technical Assistance Component Application.

OMB Number: 1559-0006.

Abstract: The purpose of the CDFI Program is to promote economic revitalization and community development through investment in and assistance to certified community development financial institutions (CDFIs). Through the Technical Assistance Component of the CDFI Program, the Fund provides technical assistance in the form of grants to competitively selected CDFIs and entities proposing to become CDFIs. The Fund provides such assistance to such entities to enhance their capacity to address the community development and capital access needs of their particular target markets, including Native American, Alaska Native, and Native Hawaiian communities.

The Technical Assistance Component is also designed to meet the unmet capacity needs of early stage CDFIs, or entities proposing to become CDFIs, who have significant potential for increasing their community development impact.
