BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 040-00017]

Notice of Consideration of Amendment Request for Dow Chemical Company's Radiation Safety Officer Change and Schedule Extension for Decommissioning of Bay City Site, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of a license amendment (LA) to Material License No. STB-527 issued to The Dow Chemical Company (TDCC), to authorize change of the Radiation Safety Officer (RSO), and to extend the time schedule for decommissioning of its Bay City site, Bay City, Michigan.

TDCC submitted a letter dated June 1, 2000, which requested a license amendment to change the RSO. TDCC also submitted a letter dated May 23, 2000, requesting an extension of the deadline for completion of decommissioning until October 31, 2003.

These letters are treated as requests for license amendment. An NRC administrative review, documented in a letter to TDCC dated July 21, 2000, found the RSO change and the schedule extension requests acceptable to begin a technical review. If the NRC approves the RSO change and the schedule extension to October 31, 2003, the approval will be documented in a license amendment to NRC License No. STB-527. However, before approving the proposed amendment, the NRC will need to make findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report and an Environmental Assessment.

NRC hereby provides notice that this is a proceeding on two applications for license amendment of a license falling within the scope of Subpart L, "Informal Hearing Procedures for Adjudication in Materials Licensing Proceedings," of NRC's rules of practice for domestic licensing proceedings in 10 CFR part 2. Pursuant to § 2.1205(a), any person whose interest may be affected by this proceeding may file a request for a
