Conclusion

The Forest Service is committed to providing adequate opportunities for the public to comment on administrative directives that are of substantial public interest or controversy, as provided in the regulations at 36 CFR part 216. Because it is important to provide Forest Service units with updated guidance and direction in a comprehensive integrated package, the agency issued the ID's on August 16, 2005, making them effective immediately. However, pursuant to 36 CFR 216.7, the Forest Service is also requesting public comment on the ID's along with the proposed directives.

All comments will be considered in the development of final directives.

Type of Request: Intent to seek approval to revise and extend an information collection.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, stocks, disposition, and prices. The Stocks Report Surveys provide estimates of stocks of grains, hops, oilseeds, peanuts, potatoes, and rice that are stored off-farm. These off-farm stocks are combined with on-farm stocks to estimate stocks in all positions. Stocks statistics are used by the U.S. Department of Agriculture to help administer programs; by State agencies to develop, research, and promote the marketing of products; and by producers to find their best market opportunity. NASS intends to request that the survey be approved for another 3 years.

These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Estimate of Burden: This information collection comprises 15 individual surveys that are conducted 1, 2, 3, 4, 7, or 12 times a year for an estimated total of 50,000 responses. Public reporting burden for this collection of information is estimated to average 18 minutes per response.

Respondents: Farms and businesses.

Estimated Number of Respondents: 13,000.

Estimated Total Annual Burden on Respondents: 15,000 hours.

Copies of this information collection and related instructions can be obtained without charge from Ginny McBride, NASS Clearance Officer, at (202) 720-5778.

information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.
