

- It has developed a national organization whose members are all predominantly minority health care professionals and providers with excellent professional performance records.

- It has developed a base of critical knowledge, skills, and abilities related to instruction in medical and health professions preparation. Through the collective efforts of its members, its affiliated community-based organizations, sponsored research, and sponsored health education and prevention programs, the AAIP has demonstrated (1) the ability to work with academic institutions and health agencies on mutual education, service, and research endeavors relating to the goal of disease prevention and health promotion for American Indian and Alaska Native populations; (2) the leadership necessary to attract minority health professionals into public health careers; and (3) the leadership needed to assist health care professionals work more effectively with American Indian and Alaska Native clients and communities.

This cooperative agreement will be continued for an additional five-year project period with 12-month budget periods. Depending upon the types of projects and availability of funds, it is anticipated that this cooperative agreement will receive approximately \$100,000 per year. Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

BILLING CODE 4160-17-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Office of Minority Health; Notice of a Cooperative Agreement With the National Council of La Raza

AGENCY: Office of the Secretary, Office of Minority Health.

ACTION: Notice of a cooperative agreement with the National Council of La Raza.

The Office of Minority Health (OMH), Office of Public Health and Science, announces its intent to continue support of the umbrella cooperative agreement with the National Council of La Raza (NCLR). This cooperative agreement will continue the broad programmatic framework in which specific projects can be supported by various governmental agencies during the project period.

The purpose of this cooperative agreement is to support the efforts of the NCLR in expanding and enhancing its activities relevant to education, service delivery, health prevention, health promotion, and health research opportunities, with the ultimate goal of improving the health status of minorities and disadvantaged people.

The OMH will provide technical assistance and oversight as necessary for the implementation, conduct, and assessment of the project activities. On an as-needed basis, OMH will assist in arranging consultation from other government agencies and non-government agencies.

Authority

This cooperative agreement is authorized under Section 1707(e)(1) of the Public Health Service Act, as amended.

Background

Assistance will continue to be provided to NCLR. During the last 5 years, NCLR has successfully demonstrated the ability to work with official health agencies on mutual education, service, and research endeavors. The NCLR is uniquely qualified to continue to accomplish the purposes of this cooperative agreement because it has the following combination of factors:

- It has developed, expanded, and managed an infrastructure to coordinate and implement various health education programs within local communities and physician groups that deal extensively with Hispanic health issues. The NCLR has established a strong network of Hispanic providers, health advocates,

and health educators that provide a foundation upon which to develop, promote, and manage health interventions, and client education programs aimed at preventing and reducing unnecessary morbidity and mortality rates among Hispanic populations.

- It has established itself and its members as organizations with professionals who serve as leaders and experts in planning, developing, implementing, and evaluating health education curricula and client-based health prevention programs aimed at reducing excessive mortality and adverse health behaviors among Hispanic populations.

- It has developed databases and directories of health education programs, health care accessibility issues, and professional development initiatives that deal exclusively with Hispanic populations that are necessary for any intervention dealing with Hispanic populations.

- It has assisted in the development of many of the current education, research, disease prevention, and health promotion activities for its members, affiliated groups, and represented subpopulations.

- It has developed national organizations whose members consist of Hispanic physicians, health care providers, researchers and advocates with excellent professional performance records. The NCLR has a broad range of membership that is comprised of mostly Hispanic health care providers.

- It has developed a base of critical knowledge, skills, and abilities related to serving Hispanic clients on a range of health and social problems. Through the collective efforts of its members, its affiliated community-based organizations, sponsored research and sponsored health education and prevention programs, it has demonstrated: (1) The ability to work with academic institutions and official health agencies on mutual education, services, and research endeavors relating to the goal of disease prevention and health promotion of Hispanic peoples; (2) the leadership needed to assist health care professionals work more effectively with Hispanic clients and communities; and (3) the leadership needed to effectively promote health professions careers to Hispanic students who would otherwise not consider such a career path.

This cooperative agreement will be continued for an additional 5-year project period with 12-month budget periods. Depending upon the types of projects and availability of funds, it is anticipated that his cooperative

agreement will receive approximately \$100,000 per year. Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

Where To Obtain Additional Information

If you are interested in obtaining additional information regarding this cooperative agreement, contact Ms. Cynthia H. Amis, Office of Minority Health, 5515 Security Lane, Suite 1000, Rockville, Maryland 20852 or telephone (301) 594-0769.

BILLING CODE 4160-17-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Office of Minority Health; Notice of a Cooperative Agreement With the National Medical Association

AGENCY: Office of the Secretary, Office of Minority Health.

ACTION: Notice of a cooperative agreement with the National Medical Association.

The Office of Minority Health (OMH), Office of Public Health and Science, announces its intent to continue support of the umbrella cooperative agreement with the National Medical Association (NMA). This cooperative agreement will continue the broad programmatic framework in which specific projects can be supported by various governmental agencies during the project period.

The purpose of this cooperative agreement is to (1) increase the association's support for and assistance in increasing the proportion of practicing minority health professionals within the U.S.; and (2) assist the association in expanding and enhancing its health prevention, promotion, and health services research opportunities, with the ultimate goal of improving the health status of minorities and disadvantaged people.

The OMH will provide technical assistance and oversight as necessary for

the implementation, conduct, and assessment of the project activities. On an as-needed basis, OMH will assist in arranging consultation from other government and non-government agencies.

Authority

This cooperative agreement is authorized under Section 1707(e)(1) of the Public Health Service Act, as amended.

Background

Assistance will continue to be provided to NMA. During the last 5 years, NMA has successfully demonstrated the ability to work with health agencies on activities relevant to practicing minority health professionals and to the improvement of the health status of minorities and disadvantaged people. The NMA is uniquely qualified to continue to accomplish the purposes of this cooperative agreement because it has the following combination of factors:

- It has developed and expanded an infrastructure to coordinate and implement medical education programs within local communities and physician groups that deal extensively with African American health issues. The association has also established regional, state, and local divisions which provide a foundation upon which to develop, promote, and conduct professional medical programs for preventing and reducing unnecessary morbidity and mortality among African Americans, as well as other minority populations.
- It has established itself and its members as an association with professionals who serve as leaders and experts in public health campaigns aimed at improving health status of minority populations.
- It has developed an extensive knowledge-base of essential disease prevention, health promotion, and research evaluation strategies that are necessary for any health intervention dealing with these minority populations, with particular focus on African Americans.
- It has assessed the current education, research, disease prevention, and health promotion activities for its members, affiliated groups, and represented subpopulations.
- It has developed a national association whose members are all predominately minority health professionals and providers.
- It has developed a knowledge-base of critical knowledge, skills, and abilities related to instruction, training, and preparation of medical and health

professionals. Through the collective efforts of its members, the association's committees, sponsored research, and sponsored health education and prevention programs, the NMA has demonstrated (1) the ability to work with academic institutions and health agencies on mutual education, service, and research endeavors relating to the goal of preventing disease and promoting health of minorities and disadvantaged people; (2) the leadership necessary to attract minority health professionals into public health careers; and (3) the leadership needed to effectively promote health professional careers as an option to minorities and disadvantaged people who would otherwise not consider such a career path.

This cooperative agreement will be continued for an additional five-year project period with 12-month budget periods. Depending upon the types of projects and availability of funds, it is anticipated that this cooperative agreement will receive approximately \$100,000 per year. Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.
