

manufacturing process under TSCA Section 8(b). 15 U.S.C. 2607(b)(10)(D)(i). The Agency promulgated reporting under 40 CFR part 713. In order to avoid duplication, EPA coordinated the reporting with the Interstate Mercury Education and Reduction Clearinghouse (IMERC). 15 U.S.C. 2607(b)(10)(D)(ii).

Regulated entities may claim some of the information given to EPA as CBI. Reporting requirements will contain information for respondents on how to make a claim to EPA that all or part of their submitted information is CBI. EPA handles claims of confidentiality pursuant to established CBI procedures, as found in TSCA section 14, 40 CFR part 2, and the Agency's TSCA CBI Manual. CBI is also protected under the Freedom of Information Act (5 U.S.C. 525).

Form Number: 9600–024.

Respondents/affected entities:

Persons who manufacture (including import) mercury, mercury-added products, and persons who otherwise intentionally use mercury in a manufacturing process.

Respondent's obligation to respond: Mandatory, 40 CFR part 713.

Estimated number of respondents: 756 (total).

Frequency of response: Every three years.

Total estimated burden: 17,348 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,384,999 million (per year), includes no annualized capital or operation & maintenance.

Changes in the estimates: There is a decrease of 6,841 hours per year in the estimated respondent burden compared with the ICR currently approved by OMB. This change reflects a decrease in rule familiarization burden, a decrease in form completion burden due to mercury export prohibitions, and changes in the number of estimated respondents. This change is an adjustment.

Director, Regulatory Support Division.

SUMMARY: In accordance with the Clean Air Act, as amended (CAA or the Act), notice is given of a proposed consent decree in *Our Children's Earth Foundation v. Regan*, No. 20–cv–8530 (N.D. Cal.). The proposed consent decree would establish deadlines for EPA to take specified actions.

SUPPLEMENTARY INFORMATION:

I. Obtaining a Copy of the Proposed Consent Decree

The official public docket for this action (identified by Docket ID No. EPA–HQ–OGC–2021–0725) contains a copy of the proposed consent decree.

The electronic version of the public docket for this action contains a copy of the proposed consent decree and is available through <https://www.regulations.gov>. You may use <https://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the official public docket, and access those documents in the public docket that are available electronically. Once in the system, key in the appropriate docket identification number then select “search.”

II. Additional Information About the Proposed Consent Decree

The proposed consent decree would fully resolve *Our Children's Earth Foundation v. Regan*, No. 20–cv–8530 (N.D. CA.) (the Litigation). The Litigation claimed that CAA section 110(h)(1) required EPA to periodically publish comprehensive documents setting out the States' SIP requirements and also required EPA to periodically publish notice in the **Federal Register** of the availability of such documents. The Litigation also claimed that EPA had failed to comply with the requirements of CAA section 110(h)(1). Under the terms of the proposed consent decree, no later than December 31, 2021, EPA will assemble and publish online on EPA-managed or controlled websites the “SIP Rules” for all States, except for California, Connecticut, North Carolina, Wisconsin, Puerto Rico, and the U.S. Virgin Islands. The information published by that date will include SIP Rule revisions and submittals finally approved by EPA and published in the **Federal Register** on or before November 30, 2021. In addition, under the terms of the proposed consent decree, no later than September 30, 2022, EPA will

assemble and publish online on EPA-managed or controlled websites the SIP Rules, including SIP Rule revisions and submittals finally approved by EPA and published in the **Federal Register** on or before August 31, 2022, for every State. The proposed consent decree does not require EPA to publish "SIP Plans," consisting of various nonregulatory or quasi-regulatory plans or material, as distinct from SIP Rules. The proposed consent decree also provides that, not later than November 30, 2022, EPA shall submit to the Office of the Federal Register, for publication in the **Federal Register**, a notice of availability of the SIP Rules information published by EPA on EPA-managed or controlled websites. See the proposed consent decree in the docket for other terms and conditions.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.

III. Additional Information About Commenting on the Proposed Consent Decree

Submit your comments, identified by Docket ID No. EPA-HQ-OGC-2021-0725, via <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from this docket. EPA may publish any comment received to its public docket. Do not submit to EPA's docket at <https://www.regulations.gov> any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>. For additional information about submitting information identified as CBI, please contact the person listed

in the **FOR FURTHER INFORMATION CONTACT** section of this document. Note that written comments containing CBI and submitted by mail may be delayed and deliveries or couriers will be received by scheduled appointment only.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an email address or other contact information in the body of your comment. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <https://www.regulations.gov> website to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, email address, or other contact information unless you provide it in the body of your comment.

Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

Associate General Counsel.
