SUPPLEMENTARY INFORMATION:

Background

On May 26, 2011, Commerce published the AD and CVD orders on aluminum extrusions from China.¹ On March 23, 2022, 3M Company (3M) requested that Commerce initiate CCRs to revoke, in part, the *Orders* with respect to certain rectangular wire, pursuant to section 751(b)(1) of the Tariff Act of 1930, as amended (the Act).² 3M requested that Commerce exercise its discretion to extend the effective date back by one additional day, setting an effective date of the revocation of the *Orders* to entries entered on or after April 30, 2021. Additionally, 3M requested that Commerce expedite the reviews by combining the notice of initiation of the CCRs and the preliminary results of the reviews pursuant to 19 CFR 351.221(c)(3)(ii). 3M stated that it is a U.S. importer of certain rectangular wire and, as such, is an interested party pursuant to Section 771(9)(A) of the Act.

On April 13, 2022, the Aluminum Extrusions Fair Trade Committee (the petitioner) submitted comments in support of partially revoking the *Orders* with regard to the certain rectangular wire defined in the CCR Request.³ The petitioner submitted data demonstrating that it represents "substantially all" of the production of the domestic like product.⁴ The petitioner also supported 3M's request that the partial revocation of the *Orders* with respect to the certain rectangular wire defined in the CCR Request include unliquidated entries of the certain rectangular wire that was entered on or after April 30, 2021.⁵ Additionally, the petitioner supported

3M's request that Commerce expedite these reviews by combining the notice of initiation of the CCRs and the preliminary results of the reviews.⁶

Scope of the Orders

The merchandise covered by these *Orders* is aluminum extrusions from China. For a complete description of the scope of the *Orders*, see the appendix to this notice.

Proposed Revocation of the Orders, in Part

3M requested that the *Orders* be revoked, in part, with respect to certain rectangular wire. 3M proposed that Commerce amend the scope language by adding the following language: "Also excluded from the scope of the orders is certain extruded rectangular wire, with or without rounded edges, imported in bulk rolls or precut strips. The product is made from aluminum alloy grade 1070 or 1370. The dimensions of the wire are 3 mm (+/- 0.05 mm) to 6 mm (+/- 0.05 mm) in width and 0.7 mm (+/- 0.05 mm) to 1.2 mm (+/- 0.05 mm) in thickness. Imports of rectangular wire are provided for under HTSUS category 7604.29.1090 or 7616.99.5190."⁷

Initiation of CCR

Pursuant to section 751(b)(1) of the Act, and 19 CFR 351.216(d), Commerce will conduct a CCR of an AD or CVD order when it receives information which shows changed circumstances sufficient to warrant such a review. Section 782(h)(2) of the Act and 19 CFR 351.222(g)(1)(i) provide that Commerce may revoke an order (in whole or in part) if it determines that producers accounting for substantially all of the production of the domestic like product have no further interest in the order, in whole or in part. In the event Commerce determines that expedited action is warranted, 19 CFR 351.221(c)(3)(ii) permits Commerce to combine the notices of initiation and preliminary results.

We have determined that it is not appropriate to combine this notice of initiation with notice of preliminary results. Specifically, prior to issuing our preliminary results, we are providing interested parties an opportunity to address the language of the proposed partial revocation of the *Orders*. On January 6, 2014, Commerce revoked the *Orders*, in part, with regard to a similar product, and added the following language to the scope of the *Orders*:

"Also excluded from the scope of the order is certain rectangular wire produced from continuously cast rolled aluminum wire rod, which is subsequently extruded to dimension to form rectangular wire. The product is made from aluminum alloy grade 1070 or 1370, with no recycled metal content allowed. The dimensions of the wire are 5 mm (+/- 0.05 mm) in width and 1.0 mm (+/- 0.02 mm) in thickness. Imports of rectangular wire are provided for under HTSUS category 7605.19.000."⁸ This partial revocation was also based on a request from 3M. While there is a certain overlap of the language of the 2014 Revocation in Part and the certain rectangular wire defined in the current CCR Request, there are also certain inconsistencies between the language of the 2014 Revocation in Part and the certain rectangular wire defined in the current CCR Request. Because of these two factors, we find that there exists a high likelihood of difficulty in enforcing the scope of the *Orders*, along with the burden of potential scope inquiries, without a synthesis of the two sets of language. Consequently, we find that expedited action is not warranted in this instance, and we issue this notice of initiation without issuing concurrent preliminary results.

Based on the petitioner's affirmative statement of no interest in the *Orders* with respect to certain rectangular wire, and because more than 24 months have passed since the publication of the *Final Determinations*,⁹ we find that the conditions warrant initiation of these CCRs.¹⁰

Public Comment

Interested parties are invited to provide comments and/or factual information regarding these CCRs, including comments on the synthesis of

the language of the of the 2014 Revocation in Part with the certain rectangular wire defined in the current CCR Request, and the setting of an effective date of the revocation of the *Orders* to entries entered on or after April 30, 2021. Comments and factual information may be submitted to Commerce no later than ten days after the date of publication of this notice. Rebuttal comments and rebuttal factual information may be filed with Commerce no later than seven days after the comments and/or factual information are filed.¹¹ Note that Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information until further notice.¹² All submissions must be filed electronically using the Enforcement and Compliance's AD and CVD Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. An electronically-filed document must be received successfully in its entirety in ACCESS by 5:00 p.m. Eastern Time on the due date set forth in this notice.

Preliminary and Final Results of the Reviews

Commerce intends to publish in the **Federal Register** a notice of the preliminary results of these AD and CVD CCRs in accordance with 19 CFR 351.221(b)(4) and (c)(3)(i), which will set forth Commerce's preliminary factual and legal conclusions. Commerce will issue its final results of these CCRs in accordance with the time limits set forth in 19 CFR 351.216(e).

Notification to Interested Parties

This notice is published in accordance with section 751(b)(1) of the Act, and 19 CFR 351.221(b)(1).

Dated: May 6, 2022.

1, 3, and 6 (or proprietary equivalents or other certifying body equivalents). Specifically, the subject merchandise made from aluminum alloy with an Aluminum Association series designation commencing with the number 1 contains not less than 99 percent aluminum by weight. The subject merchandise made from aluminum alloy with an Aluminum Association series designation commencing with the number 3 contains manganese as the major alloying element, with manganese accounting for not more than 3.0 percent of total materials by weight. The subject merchandise is made from an aluminum alloy with an Aluminum Association series designation commencing with the number 6 contains magnesium and silicon as the major alloying elements, with magnesium accounting for at least 0.1 percent but not more than 2.0 percent of total materials by weight, and silicon accounting for at least 0.1 percent but not more than 3.0 percent of total materials by weight. The subject aluminum extrusions are properly identified by a four-digit alloy series without either a decimal point or leading letter. Illustrative examples from among the approximately 160 registered alloys that may characterize the subject merchandise are as follows: 1350, 3003, and 6060.

Aluminum extrusions are produced and imported in a wide variety of shapes and forms, including, but not limited to, hollow profiles, other solid profiles, pipes, tubes, bars, and rods. Aluminum extrusions that are drawn subsequent to extrusion (drawn aluminum) are also included in the scope.

Aluminum extrusions are produced and imported with a variety of finishes (both coatings and surface treatments), and types of fabrication. The types of coatings and treatments applied to subject aluminum extrusions include, but are not limited to, extrusions that are mill finished (*i.e.*, without any coating or further finishing), brushed, buffed, polished, anodized (including brightdip anodized), liquid painted, or powder coated. Aluminum extrusions may also be fabricated, *i.e.*, prepared for assembly. Such operations should include, but are not limited to, extrusions that are cut-to-length, machined, drilled, punched, notched, bent, stretched, knurled, swaged, mitered, chamfered, threaded, and spun. The subject merchandise includes aluminum extrusions that are finished (coated, painted, *etc.*), fabricated, or any combination thereof.

Subject aluminum extrusions may be described at the time of importation as parts for final finished products that are assembled after importation, including, but not limited to, window frames, door frames, solar panels, curtain walls, or furniture. Such parts that otherwise meet the definition of aluminum extrusions are included in the scope. The scope includes the aluminum extrusion components that are attached (*e.g.*, by welding or fasteners) to form subassemblies, *i.e.*, partially assembled merchandise unless imported as part of the finished goods 'kit' defined further below. The scope does not include the non-aluminum extrusion components of subassemblies or subject kits.

Subject extrusions may be identified with reference to their end use, such as fence posts, electrical conduits, door thresholds,

carpet trim, or heat sinks (that do not meet the finished heat sink exclusionary language below). Such goods are subject merchandise if they otherwise meet the scope definition, regardless of whether they are ready for use at the time of importation. The following aluminum extrusion products are excluded: aluminum extrusions made from aluminum alloy with an Aluminum Association series designations commencing with the number 2 and containing in excess of 1.5 percent copper by weight; aluminum extrusions made from aluminum alloy with an Aluminum Association series designation commencing with the number 5 and containing in excess of 1.0 percent magnesium by weight; and aluminum extrusions made from aluminum alloy with an Aluminum Association series designation commencing with the number 7 and containing in excess of 2.0 percent zinc by weight.

The scope also excludes finished merchandise containing aluminum extrusions as parts that are fully and permanently assembled and completed at the time of entry, such as finished windows with glass, doors with glass or vinyl, picture frames with glass pane and backing material, and solar panels. The scope also excludes finished goods containing aluminum extrusions that are entered unassembled in a "finished goods kit." A finished goods kit is understood to mean a packaged combination of parts that contains, at the time of importation, all of the necessary parts to fully assemble a final finished good and requires no further finishing or fabrication, such as cutting or punching, and is assembled "as is" into a finished product. An imported product will not be considered a "finished goods kit" and therefore excluded from the scope of the *Orders* merely by including fasteners such as screws, bolts, *etc.* in the packaging with an aluminum extrusion product.

The scope also excludes aluminum alloy sheet or plates produced by other than the extrusion process, such as aluminum products produced by a method of casting. Cast aluminum products are properly identified by four digits with a decimal point between the third and fourth digit. A letter may also precede the four digits. The following Aluminum Association designations are representative of aluminum alloys for casting: 208.0, 295.0, 308.0, 355.0, C355.0, 356.0, A356.0, A357.0, 360.0, 366.0, 380.0, A380.0, 413.0, 443.0, 514.0, 518.1, and 712.0. The scope also excludes pure, unwrought aluminum in any form.

The scope also excludes collapsible tubular containers composed of metallic elements corresponding to alloy code 1080A as designated by the Aluminum Association where the tubular container (excluding the nozzle) meets each of the following dimensional characteristics: (1) Length of 37 millimeters ("mm") or 62 mm, (2) outer diameter of 11.0 mm or 12.7 mm, and (3) wall thickness not exceeding 0.13 mm.

Also excluded from the scope of these *Orders* are finished heat sinks. Finished heat sinks are fabricated heat sinks made from aluminum extrusions the design and production of which are organized around meeting certain specified thermal

performance requirements and which have been fully, albeit not necessarily individually, tested to comply with such requirements.

Also excluded from the scope of the *Orders* is certain rectangular wire produced from continuously cast rolled aluminum wire rod, which is subsequently extruded to dimension to form rectangular wire. The product is made from aluminum alloy grade 1070 or 1370, with no recycled metal content allowed. The dimensions of the wire are 5 mm (+/- 0.05 mm) in width and 1.0 mm (+/- 0.02 mm) in thickness. Imports of rectangular wire are provided for under HTSUS category 7605.19.000.

Imports of the subject merchandise are provided for under the following categories of the Harmonized Tariff Schedule of the United States (HTSUS): 6603.90.81.00, 7604.21.00.00, 7604.21.00.10, 7604.21.00.90, 7604.29.10.00, 7604.29.10.10, 7604.29.10.90, 7604.29.30.10, 7604.29.30.50, 7604.29.30.60, 7604.29.30.90, 7604.29.50.30, 7604.29.50.60, 7604.29.50.50, 7604.29.50.90, 7606.12.30.91, 7606.12.30.96, 7608.20.00.30, 7608.20.00.90, 7609.00.00, 7610.10.00, 7610.90.00, 7615.10.20.15, 7615.10.20.25, 7615.10.30, 7615.10.30.15, 7615.10.30.25, 7615.10.50.20, 7615.10.50.40, 7615.10.71, 7615.10.71.25, 7615.10.71.30, 7615.10.71.55, 7615.10.71.80, 7615.10.91, 7615.10.91.00, 7615.19.10, 7615.19.30, 7615.19.50, 7615.19.70, 7615.19.90, 7615.20.00, 7615.20.00.00, 7616.10.90.90, 7616.99.10, 7616.99.50, 7616.99.51, 8302.10.30.00, 8302.10.60.30, 8302.10.60.60, 8302.10.60.90, 8302.20.00.00, 8302.30.30.10, 8302.30.30.60, 8302.41.30.00, 8302.41.60.15, 8302.41.60.45, 8302.41.60.50, 8302.41.60.80, 8302.42.30.10, 8302.42.30.15, 8302.42.30.65, 8302.49.60.35, 8302.49.60.45, 8302.49.60.55, 8302.49.60.85, 8302.50.00.00, 8302.60.90.00, 8305.10.00.50, 8306.30.00.00, 8414.59.60.90, 8415.90.80.45, 8418.99.80.05, 8418.99.80.50, 8418.99.80.60, 8419.90.10.00, 8422.90.06.40, 8424.90.00.30, 8473.30.51.00, 8479.89.94, 8479.89.98, 8479.90.85.00, 8479.90.94, 8481.90.90.60, 8481.90.90.85, 8486.90.00.00, 8487.90.00.80, 8503.00.95.20, 8508.70.00.00, 8513.90.20, 8515.90.20.00, 8516.90.50.00, 8516.90.80.50, 8517.70.00.00, 8529.90.73.00, 8529.90.97.60, 8536.90.80.85, 8538.10.00.00, 8541.90.00.00, 8543.90.88.80, 8543.90.88.85, 8708.10.30.50, 8708.29.50.60, 8708.29.51.60, 8708.80.65.90, 8708.99.68.90, 8803.30.00.60, 9013.90.50.00, 9013.90.90.00, 9031.90.90.95, 9031.90.91.95, 9401.90.50.81, 9401.99.90.81, 9403.10.00, 9403.20.00, 9403.90.10.40, 9403.90.10.50, 9403.90.10.85, 9403.90.25.40, 9403.90.25.80, 9403.90.40.05, 9403.90.40.10, 9403.90.40.60, 9403.90.50.05, 9403.90.50.10, 9403.90.50.80, 9403.90.60.05, 9403.90.60.10, 9403.90.60.80, 9403.90.70.05, 9403.90.70.10, 9403.90.70.80, 9403.90.80.10, 9403.90.80.15, 9403.90.80.20, 9403.90.80.41, 9403.90.80.51, 9403.90.80.61, 9403.99.10.40, 9403.99.90.10, 9403.99.90.15, 9403.99.90.20, 9403.99.90.41, 9405.99.40.20, 9506.11.40.80, 9506.51.40.00, 9506.51.60.00, 9506.59.40.40, 9506.70.20.90, 9506.91.00.10, 9506.91.00.20, 9506.91.00.30, 9506.99.05.10, 9506.99.05.20, 9506.99.05.30, 9506.99.15.00, 9506.99.20.00, 9506.99.25.80, 9506.99.28.00, 9506.99.55.00, 9506.99.60.80, 9507.30.20.00, 9507.30.40.00, 9507.30.60.00, 9507.30.80.00, 9507.90.60.00, and 9603.90.80.50.

Partial Rescission of Administrative Review

This administrative review covers 82 companies and the Vietnam-wide entity.⁸ Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if the party that requested a review withdraws the request within 90 days of the date of publication of the notice of initiation. As noted above, all interested parties timely withdrew their requests for review of 66 of the companies requested and the Vietnam-wide entity. Accordingly, Commerce is rescinding this review with respect to these 66 companies and the Vietnam-wide entity, in accordance with 19 CFR 351.213(d)(1).⁹ The review will continue with respect to the other firms for which a review was requested and initiated. For additional information, see the Preliminary Decision Memorandum.

Preliminary Determination of No Shipments

Based upon the no-shipment certifications received by Commerce, and our review of the CBP data, we preliminarily find that 15 companies had no shipments during the POR. Commerce requested that CBP confirm whether any shipments of subject merchandise entered the United States during the POR with respect to the 15 companies that submitted no-shipment claims, and CBP responded that it has no record of any subject entries for these 15 exporters.¹⁰ Based on the record evidence submitted, we preliminarily determine that these 15 companies had no shipments during the POR. For additional information regarding this determination, see the Preliminary Decision Memorandum. Consistent with our practice in non-market economy (NME) administrative reviews,¹¹ Commerce is not rescinding this review for these 15 companies.¹² Commerce intends to complete this review and issue appropriate instructions to CBP based on the final results of this review.
