II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to modify Commentary .05 to Exchange Rule 1012 to expand the \$.50 Strike Program in order to provide investors with opportunities and strategies to minimize losses associated with owning a stock declining in price.

The Exchange is proposing to establish strike price intervals of \$.50, beginning at \$.50 for certain options classes where the strike price is \$5.50 or less and whose underlying security closed at or below \$5.00 in its primary market on the previous trading day and which have national average daily volume that equals or exceeds 1000 contracts per day as determined by The Options Clearing Corporation ("OCC") during the preceding three calendar months. The Exchange also proposes to limit the listing of \$.50 strike prices to options classes overlying no more than 20 individual stocks as specifically designated by the Exchange.

Currently, Exchange Rule 1012 at Commentary .05 permits strike price intervals of \$.50 or greater beginning at \$1.00 where the strike price is \$3.50 or less, but only for option classes whose underlying security closed at or below \$3.00 in its primary market on the previous trading day and which have national average daily volume that equals or exceeds 1000 contracts per day as determined by The Options Clearing Corporation during the preceding three calendar months. Further, the listing of \$.50 strike prices is limited to options classes overlying no more than 5 individual stocks as specifically designated by the Exchange. The Exchange is currently restricted from listing series with \$1 intervals within \$.50 of an existing strike price in the same series, except that strike prices of \$2, \$3, and \$4 shall be
