

## Transmittal No. 07-02

**Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act**

**Annex  
Item No. vii**

**(vii) Sensitivity of Technology:**

1. The TOW-2 Weapon System hardware and documentation provided with this proposed sale are unclassified. However, sensitive technology is contained with the system itself. This sensitivity is primarily in the software programs, which instruct the system how to operate in the presence of countermeasures. Programs are contained in the system in the form of microprocessors with only Read out Memory maps being available, which do not provide the software program itself. The overall hardware is also considered sensitive in that the modulation frequency and infrared wavelengths could be useful in attempted countermeasure development.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

## DEFENSE SECURITY COOPERATION AGENCY

WASHINGTON, DC 20301-2000

07 DEC 2006

In reply refer to:  
1-06/009228

The Honorable J. Dennis Hastert  
Speaker of the House of Representatives  
Washington, DC 20515-6501

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 07-03, concerning the Department of the Navy's proposed Letter(s) of Offer and Acceptance to Pakistan for defense articles and services estimated to cost \$855 million. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

A handwritten signature in cursive script, reading "Richard J. Millies", is positioned above the typed name.

Richard J. Millies  
Deputy Director

## Transmittal No. 07-03

Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act, as amended

- (i) Prospective Purchaser: Pakistan
- (ii) Total Estimated Value:
- |                          |                      |
|--------------------------|----------------------|
| Major Defense Equipment* | \$241 million        |
| Other                    | <u>\$614 million</u> |
| TOTAL                    | \$855 million        |
- (iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase: refurbishment and modification of three excess P-3 aircraft with the E-2C HAWKEYE 2000 Airborne Early Warning (AEW) Suite, spare and repairs parts, simulators, support equipment, personnel training and training equipment, publications and technical data, system software development and installation, ground/flight testing of new systems and system modifications, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support.
- (iv) Military Department: Navy (SBD and SBE)
- (v) Prior Related Cases, if any: FMS case SAV - \$54 million – 28Jun05
- (vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: none
- (vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: none.
- (viii) Date Report Delivered to Congress: 07 DEC 2006

\* as defined in Section 47(6) of the Arms Export Control Act.

### POLICY JUSTIFICATION

#### Pakistan – E-2C Hawkeye 2000 Airborne Early Warning Suite

The Government of Pakistan has requested a possible sale of refurbishment and modification of three excess P-3 aircraft with the E-2C HAWKEYE 2000 Airborne Early Warning (AEW) Suite, spare and repairs parts, simulators, support equipment, personnel training and training equipment, publications and technical data, system software development and installation, ground/flight testing of new systems and system modifications, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$855 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for economic progress in South Asia and a partner in the global war on terrorism. The command-and-control capabilities of these aircraft will improve Pakistan's ability to restrict the littoral movement of terrorists along Pakistan's southern border and ensure Pakistan's overall ability to maintain integrity of its borders.

Pakistan intends to use the proposed purchase to develop an effective air defense network for its naval forces and provide an AEW surveillance and enhanced command, control, and communications capability. The addition of these excess aircraft will provide Pakistan with search surveillance, and control capability in support of maritime interdiction operations. These aircraft will also increase Pakistan's ability to support the U.S. Operation Enduring Freedom operations, and provide anti-ship and anti-submarine warfare capabilities; and a control capability over land against transnational terrorists and narcotics smugglers. The modernization will enhance the capabilities of the Pakistani Navy and support its regional influence and meet its legitimate self-defense needs. Pakistan will have no difficulty absorbing the AEW platform into its armed forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be Northrop Grumman Corporation, St. Augustine, Florida and Lockheed-Martin, Greenville, South Carolina. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government and contractor representatives to Pakistan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

## Transmittal No. 07-03

Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act

Classified Annex  
Item No. vii

(vii) Sensitivity of Technology:

1. The Hawkeye 2000 Airborne Early Warning (AEW) suite installed in a P-3B contains a mixture of newer and older technologies. Some of the hardware, publications, performance specifications, operational capability, parameters, vulnerabilities to countermeasures, and software documentation are classified Secret. The classified information to be provided consists of that which is necessary for the operation, maintenance and intermediate level repair of the P-3B airframe and the Hawkeye 2000 system as well as other installed and related software.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or could be used in the development of a system with similar or advanced capabilities.
