SUPPLEMENTARY INFORMATION:

I. Background

On October 13, 2000, EPA received the consolidated PMN P-01-46 through P-01-51 for new chemical substances, identified as modified alkyl esters. The submitter claimed the company name, specific chemical identity, production volume, use information, process information, and other information to be confidential business information. Notice of receipt was published in the **Federal Register** on November 9, 2000, (65 FR 67367) (FRL-6754-8). Prior to this extension, the 90-day review periods were scheduled to expire on January 10, 2001.

II. What Action is the Agency Taking?

Pursuant to section 5(c) of TSCA, EPA is extending the review periods for PMN P-01-46 through P-01-51 an additional 90 days. As extended, the review periods for this consolidated PMN will now expire on April 10, 2001.

III. What is the Agency's Authority for Taking this Action?

EPA finds that there is good cause to extend the consolidated PMN review periods. Based on its analysis, EPA may need to regulate the substances submitted for review in this consolidated PMN under section 5 of TSCA. The Agency requires an extension of the review periods, as authorized by section 5(c) of TSCA, to investigate further potential risk, to examine its regulatory options, and to prepare the necessary documents, should regulatory action be required.
