SUPPLEMENTARY INFORMATION: This document announces that OMB approved the information collection requirements in § 90.1207(e) and (f) on September 7, 2023. This rule section was adopted in the Commission's Seventh Report and Order, in WP Docket No. 07–100; FCC 23–3, published at 88 FR 12565, February 28, 2023. In this Seventh Report and Order, the Commission adopted a proposal to collect more granular data on public safety deployments in the 4.9 GHz band. The Commission also decided to continue using the Universal Licensing System (ULS) as the licensing database for public safety operations in the 4.9 GHz band. The Commission directed the Public Safety and Homeland Security Bureau and the Wireless Telecommunications Bureau (collectively the Bureaus) to make any necessary enhancements to ULS and obtain any necessary review under the Paperwork Reduction Act, and announce by a notice when ULS is prepared to accept the granular data specified in § 90.1207(e) and (f) on public safety operations in the 4.9 GHz band. The Commission also directed the Bureaus to announce the compliance date for § 90.1207(e) and (f) by a subsequent notice and to cause § 90.1207(g) to be revised accordingly. ULS will be prepared to accept the granular data on December 9, 2024. Therefore, consistent with instructions from the Seventh Report and Order, this document revises § 90.1207 by adding compliance dates to paragraph (g) which states that compliance with paragraphs (e) and (f) is not required until paragraph (g) is updated. The Commission publishes this document as a compliance date of the rule. If you have any comments on the burden estimates listed below, or how the Commission can improve the collections and reduce any burdens cause thereby, please contact Nicole Ongele, Federal Communications Commission, 45 L Street NE, Washington, DC 20554. Please include OMB Control Number, 3060–1312, in your correspondence. The Commission will also accept your comments via email at PRA@fcc.gov.

50 CFR Part 648

[Docket No. 231221–0314; RTID 0648–XE510]

Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Quota Transfer From New York to North Carolina

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the State of New York is transferring a portion of their 2024 commercial bluefish quota to the State of North Carolina. This quota adjustment is necessary to comply with the Atlantic Bluefish Fishery Management Plan (FMP) quota transfer provisions. This announcement informs the public of the revised 2024 commercial bluefish

quotas for New York and North Carolina.

DATES: Effective December 6, 2024, through December 31, 2024.

FOR FURTHER INFORMATION CONTACT: Matthew Rigdon, Fishery Management Specialist, (978) 281–9336.

SUPPLEMENTARY INFORMATION:

Regulations governing the Atlantic bluefish fishery are found in 50 CFR 648.160 through 648.167. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through Florida. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.162, and the final 2024 allocations were published on January 2, 2024 (89 FR 34).

The final rule implementing amendment 1 to the FMP, as published in the **Federal Register** on July 26, 2000 (65 FR 45844), provided a mechanism for transferring bluefish commercial

quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can request approval to transfer or combine bluefish commercial quota under § 648.162(e). The Regional Administrator is required to consider three criteria in the evaluation of requests for quota transfers or combinations: (1) the transfers would not preclude the overall annual quota from being fully harvested; (2) the transfers address an unforeseen variation or contingency in the fishery; and (3) the transfers are consistent with the objectives of the FMP and the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). The Regional Administrator has determined these criteria have been met for the transfers approved in this notification.

New York is transferring 50,000 pounds (lb) (22,680 kilograms (kg)) to

North Carolina through mutual agreement of the States. This transfer was requested to ensure North Carolina would not exceed its 2024 State quota. The revised bluefish quotas for 2024 are: New York, 339,190 lb (153,854 kg) and North Carolina, 1,130,996 lb (513,011 kg).

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 648.162(e)(1)(i) through (iii), which was issued pursuant to section 304(b), and is exempted from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: December 3, 2024.
