### **Agency Forms Undergoing Paperwork Reduction Act Review**

In accordance with the Paperwork  
Reduction Act of 1995, the Centers for  
Disease Control and Prevention (CDC)  
has submitted the information  
collection request, titled Evaluation of  
Enhancing HIV Prevention  
Communication and Mobilization  
Efforts through Strategic Partnerships, to  
the Office of Management and Budget  
(OMB) for review and approval. CDC  
previously published a "Proposed Data

Collection Submitted for Public  
Comment and Recommendations" notice  
on June 15, 2020 to obtain  
comments from the public and affected  
agencies. CDC did not receive comments  
related to the previous notice. This  
notice serves to allow an additional 30  
days for public and affected agency  
comments.

CDC will accept all comments for this  
proposed information collection project.  
The Office of Management and Budget  
is particularly interested in comments  
that:

(a) Evaluate whether the proposed  
collection of information is necessary  
for the proper performance of the  
functions of the agency, including  
whether the information will have  
practical utility;

(b) Evaluate the accuracy of the  
agencies estimate of the burden of the  
proposed collection of information,  
including the validity of the  
methodology and assumptions used;

(c) Enhance the quality, utility, and  
clarity of the information to be  
collected;

(d) Minimize the burden of the  
collection of information on those who  
are to respond, including, through the  
use of appropriate automated,  
electronic, mechanical, or other  
technological collection techniques or  
other forms of information technology,  
*e.g.*, permitting electronic submission of  
responses; and

(e) Assess information collection  
costs.

To request additional information on  
the proposed project or to obtain a copy  
of the information collection plan and  
instruments, call (404) 639-7570.  
Comments and recommendations for the  
proposed information collection should  
be sent within 30 days of publication of  
this notice to [www.reginfo.gov/public/  
do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular  
information collection by selecting  
"Currently under 30-day Review—Open  
for Public Comments" or by using the  
search function. Direct written  
comments and/or suggestions regarding  
the items contained in this notice to the  
Attention: CDC Desk Officer, Office of  
Management and Budget, 725 17th  
Street NW, Washington, DC 20503 or by  
fax to (202) 395-5806. Provide written  
comments within 30 days of notice  
publication.

Evaluation of Enhancing HIV  
Prevention Communication and  
Mobilization Efforts through Strategic  
Partnerships (OMB Control No. 0920-  
1161)—Reinstatement without change—  
National Center for HIV/AIDS, Viral  
Hepatitis, STD, and TB Prevention

(NCHHSTP), Centers for Disease Control and Prevention (CDC).

### Background and Brief Description

The Let's Stop HIV Together (Together) campaign is a multifaceted national communication initiative that supports reduction of HIV incidence in the United States through multiple, concurrent communication and education campaigns for a variety of audiences, including the general public, populations most affected by HIV and health care providers. All components of the campaign support the comprehensive HIV prevention efforts of CDC and the Ending the HIV Epidemic initiative.

Within this context, the Centers for Disease Control and Prevention's Division of HIV/AIDS Prevention (DHAP) is implementing various partnership activities to increase HIV awareness among the general public, reduce new HIV infections among disproportionately impacted populations, and improve health outcomes for people with HIV in United States and its territories. For example, DHAP is funding the "Enhancing HIV Prevention Communication and Mobilization Efforts through Strategic Partnerships" program. Partners funded under the partnership program will (1) support the dissemination of Together campaign materials, messaging, and other CDC resources that support HIV prevention and (2) implement national engagement efforts focusing on HIV

prevention and awareness. Partners represent civil, media, and LGBT-focused organizations.

In addition, DHAP will continue to support ongoing activities to engage and support the private sector in promoting HIV education, awareness, and policies in the workplace and community. Overall, partnership efforts serve to increase HIV awareness among the general public, reduce new HIV infections among disproportionately impacted populations, and improve health outcomes for people with HIV in the United States and its territories.

The project will evaluate the extent to which activities implemented by partners meet the initiative's goals for disseminating, communicating, and engaging the public in HIV prevention and education activities. We will collect information from partners on their activities for disseminating HIV messages through materials distribution at national and local events, media and advertising, HIV testing facilitation, and formation and coordination of strategic partnerships; barriers and facilitators to implementation of these activities, and factors that may help contextualize their progress towards meeting the initiative's goals; and their involvement in promoting HIV education, awareness, and policies in their organization. We will collect this information through these five sources: (a) Metrics Database: Partners will be required to report quarterly data to CDC and CDC's evaluation contractor through a metrics

database. (b) Biannual key informant interviews: The point of contacts (POCs) from some partner organizations will be interviewed twice yearly via telephone. (c) Interim Progress Reports: Partners will complete a standardized progress report on a biannual basis via a user-friendly electronic form. The progress reports will gather information on key successes, facilitators and barriers, and major achievements. (d) Partner Survey: Partners will complete a brief online survey to assess their involvement in promoting HIV education, awareness, and policies in their organization. (e) Partnerships Activities Form: Partners may be asked to complete a brief electronic form to provide information on each partner activity that they complete. The form will collect information on information such as the type of event, the audience, and key highlights; the number of HIV tests administered (if any) and the number of preliminary positives; the number and type of materials distributed. This information will allow CDC to know what partners are doing to advance HIV prevention and education, and how CDC can alter their partnership efforts to facilitate HIV prevention and education in the future. The organization (and not the individual) will be the unit of analysis. As such, no personally identifiable information will be collected.

There is no cost to participants other than their time. The total estimated annualized burden hours are 4,411.
