

3.7.1—Cost Allocation

This section now provides a detailed bullet list of basic requirements for cost allocation policies to better illustrate the cost allocation requirements proposed in the published draft Financial Guide.

2.5.3—Security for Data and Records Including Electronic Data Processing and Cybersecurity

This section combines information from scattered sections in the previous draft to more clearly require grantees to “have written security policies and procedures for physical and digital assets including all financial data and records in any form (e.g., electronic data processing (EDP) and cybersecurity policies and procedures).” Furthermore, LSC recommends in this section that “These policies and practices should be part of an overall data and records security policy and an annual overall risk-assessment process.” Finally, LSC provides in this section a bullet list of issues that these policies must address, including a risk assessment at least annually and resolution of risk findings or conclusions.
