Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Request:* The River Falls Hydroelectric Project consists of the Junction Falls and Powell Falls developments. The applicant seeks approval to decommission and remove the Powell Falls development from the project license, keeping the facilities in

place. As background, a flood damaged the Powell Falls development right training wall, as well as other project-related generating equipment in June 2020. This event necessitated a drawdown of the impoundment (Lake Louise) to investigate the extent of damage. Rather than refill the impoundment and restore generation, the applicant now proposes to remove the development from the project license.

SUPPLEMENTARY INFORMATION:

Title: Land Description: Public Land States/Non-Public Land States.

OMB Control No.: 1902–0145.

Type of Request: Three-year extension of FERC–587.

Abstract: Section 24 of the Federal Power Act (FPA) ¹ requires the Commission to conduct this collection of information, which pertains to applications proposing hydropower projects, or changes to existing hydropower projects, within “lands of the United States.” FERC Form 587 consolidates the required information, including a description of the applicable U.S. lands and identification of hydropower project boundary maps associated with the applicable U.S. lands. An applicant must send FERC Form 587 both to the Commission and to the Bureau of Land Management (BLM) ² state office where the project is located. The information consolidated in FERC Form 587 facilitates the reservation of U.S. lands as hydropower sites and the withdrawal of such lands from other uses.

Type of Respondents: Applicants proposing hydropower projects, or changes to existing hydropower projects, within lands of the United States.

Estimate of Annual Burden: The Commission estimates 70 responses, 70 hours, and \$6,090 in costs annually for respondents. These burdens are itemized in the following table:

¹ 16 U.S.C. 818.

² The Bureau of Land Management is within the U.S. Department of the Interior.
