Take notice that on July 23, 2024, Florida Gas Transmission Company, LLC (FGT), 1300 Main St., P.O. Box 4967, Houston, Texas 77210–4967, filed in the above referenced docket a prior notice request pursuant to sections 157.205, 157.208, 157.210, and 157.216 of the Commission's regulations under the Natural Gas Act (NGA), and FGT's blanket certificate issued in Docket No. CP82–553–000, for authorization to perform a miscellaneous rearrangement of facilities on its mainline transmission system to accommodate a joint venture waterway diversion project (Comite River Diversion Canal Project) between the United States Army Corps of Engineers, Louisiana Department of Transportation and Development, Amite River Basin Commission, and East Baton Rouge Parish, Louisiana. The project will provide flood protection in the Baton Rouge Metropolitan Area in East Baton Rouge Parish, Louisiana. FGT states that there will be no change to its daily mainline capacity. FGT estimates the cost for the project to be approximately \$26 million, all as more fully set forth in the request, which is on file with the Commission and open to public inspection.

**Public Participation**

There are three ways to become involved in the Commission's review of this project: you can file a protest to the project, you can file a motion to intervene in the proceeding, and you can file comments on the project. There is no fee or cost for filing protests, motions to intervene, or comments. The deadline for filing protests, motions to intervene, and comments is 5:00 p.m. Eastern Time on October 4, 2024. How to file protests, motions to intervene, and comments is explained below.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or [OPP@ferc.gov](mailto:OPP@ferc.gov).

**Protests**

Pursuant to section 157.205 of the Commission's regulations under the NGA,<sup>1</sup> any person<sup>2</sup> or the Commission's staff may file a protest to the request. If no protest is filed within the time allowed or if a protest is filed and then withdrawn within 30 days after the allowed time for filing a protest, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request for authorization will be considered by the Commission.

Protests must comply with the requirements specified in section

157.205(e) of the Commission's regulations,<sup>3</sup> and must be submitted by the protest deadline, which is October 4, 2024. A protest may also serve as a motion to intervene so long as the protestor states it also seeks to be an intervenor.

**Interventions**

Any person has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure<sup>4</sup> and the regulations under the NGA<sup>5</sup> by the intervention deadline for the project, which is October 4, 2024. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to-intervene.asp>.

All timely, unopposed motions to intervene are automatically granted by operation of Rule 214(c)(1). Motions to intervene that are filed after the intervention deadline are untimely and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

**Comments**

Any person wishing to comment on the project may do so. The Commission considers all comments received about the project in determining the appropriate action to be taken. To ensure that your comments are timely

##### **Stakeholder Gas Utility, LLC; Notice of Application and Establishing Intervention Deadline**

Take notice that on July 24, 2024, Stakeholder Gas Utility, LLC (Stakeholder), 19122 US HWY 281 N, Suite 113, San Antonio, Texas 78258, filed an application under section 7(c) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting authorization of a temporary limited jurisdiction certificate (Project). The Project will enable Stakeholder to continue to provide transportation service to the RPC Power electric generating facility in Yoakum County, Texas, to accommodate modifications made to its non-jurisdictional gathering system. Certificate authority is required due to a reverse flow scenario where gas delivered to the RPC Power facility would be sourced from an existing interstate pipeline interconnection with El Paso Natural Gas Company rather than through Stakeholder's existing non-jurisdictional gathering facilities, all as more fully set forth in the application which is on file with the Commission and open for public inspection.
