Abstract of Proposed Collection

USAID collects information from individuals and organizations to conduct screening to help ensure that USAID funds, USAID-funded activities, or other resources will not be used to provide support to entities or individuals deemed to be a risk to national security.

USAID vets prospective awardees seeking funding from USAID to mitigate the risk that such funds might benefit entities or individuals who present a national security risk. To conduct vetting, USAID collects information from prospective awardees and subawardees regarding their directors, officers, and/or key employees. The information collected is compared to information gathered from commercial, public, and U.S. Government databases to determine the risk that the applying organization or individual might use Agency funds or programs in a way that presents a threat to national security.

Methodology

USAID collects information via mail or electronic submission.

Director, Bureau for Management, Office of Management Policy, Budget, and Performance, U.S. Agency for International Development.

Farm Service Agency

Title: 7 CFR 764, Direct Loan Making.

OMB Control Number: 0560–0237.

Summary of Collection: The Farm Loan Program (FLP) in the Farm Service Agency (FSA) provides loans to family farmers to purchase real estate and equipment and finance agricultural production. The regulation as specified in 7 CFR 764 covered by this collection describes the policies and procedures the agency uses to provide supervised credit to FLP applicants requesting direct loan assistance in accordance with the provisions of the Consolidated Farm and Rural Development Act (CONTACT) (Pub. L. 87–128), as amended. Direct loan making information collection requirements include financial and production records of the operation, as well as information necessary to obtain liens on collateral, provide evidence of the indebtedness, and ensure repayment of the loan. FSA will use several forms and non-forms to collect the information.

Need and Use of the Information: Information is submitted by the applicants to the local agency office serving the county in which their business is headquartered. The information is necessary to thoroughly evaluate the applicant's request for a direct loan and is used by agency officials to: (1) Ensure that cash flow projections used in determining loan repayment are based on the actual production history of the operation, (2) Ensure that a loan is adequately secured; (3) Ensure the applicant meets the statutorily established program eligibility requirements; and (4) Obtain assignment on income or sales proceeds, when appropriate, to ensure timely repayment of the loans.

Since the agency is mandated to provide supervised credit, failure to collect the information, or collecting it less frequently, could result in the failure of the farm operation or loss of agency security property.

Description of Respondents: Business or other for-profit; Farms.

Number of Respondents: 184,871.

Frequency of Responses: Reporting: On occasion; Annually.

Total Burden Hours: 285,272.

Food and Nutrition Service

Title: Summer Food Site Locations for State Agencies.

OMB Control Number: 0584–0649.

Summary of Collection: Section 13 of the Richard B. Russell National School Lunch Act (NSLA) authorizes the Summer Food Service Program (SFSP) and the National School Lunch Program Seamless Summer Option (SSO) to provide low-income children with access to nutritious meals when school is not in session. Meals meeting Federal nutrition guidelines are served at no cost to all children 18 years old and under at approved SFSP and SSO sites in areas in which at least 50 percent of children are eligible for free and reduced price school meals during the school year. SFSP and SSO sites operate, by design, for a short period during the summer and their locations, hours and days of operations may not be well known to those children who depend on school lunch during the school year. The FNS–905 Summer Food Site Locator will collect this information and make it available to the public. For this revision, the responses and burden hours have increased due to an adjustment in the number of responses submitted per respondent. In addition, \$1,713 that was mistakenly reported as part of the annualized respondent capital, start-up, operational, and maintenance costs in the last submission have been removed and are no longer being reported as burden costs.

Need and Use of the Information: This is an ongoing, voluntary information collection which is used by FNS to update the USDA National Hunger Clearinghouse, which is mandated under Section 26 of the NSLA. FNS collects information about
