Proposed Habitat Conservation Plan and Draft Environmental Assessment for the Tumwater East Distribution Center and Tumwater West Conservation Site, Thurston County, Washington

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, received an application from Puget Western, Incorporated, for an incidental take permit pursuant to the Endangered Species Act. The application includes a habitat conservation plan (HCP), which describes the actions the applicant will take to minimize and mitigate the impacts of the taking of the threatened Olympia subspecies of the Mazama pocket gopher that may occur incidental to the otherwise lawful commercial development of applicant-owned land in the City of Tumwater, Thurston County, Washington. We also announce the availability of a draft environmental assessment addressing the HCP and proposed permit. We invite comments from all interested parties.

DATES: To ensure consideration, please submit written comments by November 25, 2020.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), received an application from Puget Western, Incorporated, including its wholly owned subsidiaries Tumwater West Conservation Site LLC, Tumwater East I-5 Distribution Center LLC, and Tumwater East I-5 Commercial LLC (applicant) for an incidental take permit (ITP) pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests an ITP that would authorize “take” of the threatened Olympia subspecies of the Mazama pocket gopher (*Thomomys mazama pugetensis*; hereafter referred to as the Olympia pocket gopher) incidental to otherwise lawful commercial warehouse construction and associated infrastructure improvements for stormwater and transportation safety in Thurston County, Washington. The application includes a habitat conservation plan (HCP), which describes the actions the applicant will take to minimize and mitigate the impacts of the taking on the covered species. The Service also announces the availability of a draft environmental assessment (EA) addressing the HCP and proposed ITP. As the EA was developed prior to the Council on Environmental Quality’s issuance of updated regulations implementing NEPA which went into effect on September 14, 2020 (40 CFR 1506.13), the EA was completed under the previous regulations in the interest of time and efficiency. We invite comments from all interested parties regarding the ITP application, including the HCP and draft EA.

Background

The term “harm,” as defined in our regulations, includes significant habitat modification or degradation that results in death or injury to listed species by significantly impairing essential behavioral patterns, including breeding, feeding, or sheltering (50 CFR 17.3). The term “harass” is defined in our regulations as to carry out actions that create the likelihood of injury to listed species to such an extent as to significantly disrupt normal behavioral patterns, which include, but are not limited to, breeding, feeding, or sheltering (50 CFR 17.3).

Section 10(a)(1)(B) of the ESA contains provisions that authorize the
