

Background

On July 25, 2001, the Department received a request from Uday Engineering Works ("Uday"), pursuant to section 751(a)(2)(B) of the Act and in accordance with 19 CFR 351.214(b), to conduct a new shipper review of the antidumping duty order on stainless steel bar from India. At the Department's direction, Uday amended its request for a new shipper review on September 20, 2001. This order has an August semi-annual anniversary month.

Initiation of Review

Pursuant to 19 CFR 351.214(b)(2)(iii), Uday certified in its July 25, 2001 request that it is not now and never has been affiliated with any exporter or producer who exported the subject merchandise to the United States during the period of investigation ("POI") (July 1, 1993 through December 31, 1993). In its September 20, 2001 filing, Uday certified, pursuant to 19 CFR 351.214(b)(2)(i), that it did not export the subject merchandise to the United States during the POI. On September 20, 2001, Uday also submitted documentation establishing: (i) The date on which its stainless steel bar was first shipped for export to the United States; (ii) the volume of that shipment; and (iii) the date of the first sale to an unaffiliated customer in the United States.

In accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214, we are initiating a new shipper review of the antidumping duty order on stainless steel bar from India. In accordance with 19 CFR 351.214(h)(i), we intend to issue the preliminary results of this review not later than 180 days after the date on which the review is initiated. All provisions of 19 CFR 351.214 will apply to Uday throughout the duration of this new shipper review. The standard period of review ("POR") in a new shipper review based on the semiannual anniversary month is the six month period immediately preceding the semiannual anniversary month, *i.e.* for the instant review, February 1 through July 31, 2001.

Concurrent with publication of this notice, and in accordance with 19 CFR 351.214(e), we will instruct the Customs Service to allow, at the option of the importer, the posting of a bond or security in lieu of a cash deposit for each entry of the merchandise exported by the company listed above, until the completion of the review.

Interested parties must submit applications for disclosure under administrative protective order in

accordance with 19 CFR 351.305 and 351.306.

This initiation notice is in accordance with section 751(a) of the Act and 19 CFR 351.214.

Dated: October 17, 2001.

Richard W. Moreland,

Deputy Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Voluntary Conformity Assessment Systems Evaluation (NVCASE) Program is a voluntary program to evaluate organizations that carry out activities related to laboratory testing, product certification, and quality system registration. Interested organizations provide information to NIST to support their conformance with established criteria for any of these activities. The information provided is used to conduct an NVCASE evaluation. Based on NVCASE evaluations, NIST provides recognition to qualified U.S.

organizations. The ultimate goal is to help U.S. manufacturers satisfy applicable product requirements mandated by other countries through conformity assessment procedures conducted in this country prior to export.

NVCASE recognition (1) provides other governments with a basis for having confidence that qualifying U.S. conformity assessment bodies (CABs) are competent, and (2) facilitates the acceptance of U.S. products in foreign regulated markets based on U.S. conformity assessment results.

The NVCASE recognition program facilitates U.S. trade with Europe, Asia and the Americas under government-to-government agreements, and allows the unhindered flow of U.S. products to countries in those regions.
