Agency: Employee Benefits Security Administration.

Type of Review: Extension without change of currently approved collection.

Title: Suspension of Pension Benefits Regulation Pursuant to 29 CFR 2530.203-3.

OMB Number: 1210-0048.

Affected Public: Private Sector: Business or other for-profits.

Total Estimated Number of Respondents: 47,614.

Total Estimated Annual Burden Hours: 162,274.

Total Estimated Annual Costs Burden: \$107,263.

Description: Section 203(a)(3)(B) of the Employee Retirement Security Act and regulations thereunder (see 29 CFR 2530.203-3) govern the circumstances under which pension plans may suspend pension benefit payments to retirees that return to work, or of participants who continue to work beyond normal retirement age. More specifically, in order for a plan to suspend benefits pursuant to the regulation, it must notify the affected retiree or participant during the first calendar month or payroll period in which the plan withholds payment that benefits are suspended. The notice must include the specific reasons for such suspension, a general description of the plan provisions authorizing the suspension, a copy of the relevant plan provisions, and a statement indicating where the applicable regulations may be found, i.e., 29 CFR 2530.203-3. In addition, the suspension notification must inform the retiree or participant of the plan's procedure for affording a review of the suspension of benefits.

The requirement that retirees or participants be notified in the event of a suspension of benefits is intended to protect their non-forfeitable right to their normal retirement benefits. By informing retirees or participants of the reasons for the suspension, the authority for the suspension, and the plan's procedure for review of a suspension of benefits, participants are made aware of the status of their pension benefits and are able to raise with the plan facts or issues that may be relevant to determining whether a suspension of

benefits is proper under the circumstances. For additional information, see related notice published at 72 FR 72767 on December 21, 2007.

Acting Departmental Clearance Officer.

BILLING CODE 4510-FN-P

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request (DRAFT)

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the

Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* Grant and Cooperative Agreement Provisions.

2. *Current OMB approval number:* 3150-0107.

3. *How often the collection is required:* Most reports are submitted on occasion. Recipients must also submit technical performance reports twice yearly.

4. *Who is required or asked to report:* Grantees and Cooperators.

5. *The number of annual respondents:* 140.

6. *The number of hours needed annually to complete the requirement or request:* 4,613 hours.

7. *Abstract:* The Division of Contracts (DC) is responsible for the awarding of grants and cooperative agreements for the NRC. The DC collects information from grantees and cooperators in order

to administer these programs. The DC uses provisions (required to obtain or retain a benefit in its awards and cooperative agreements) to ensure: Adherence to Public Laws, that the Government's rights are protected, that work proceeds on schedule, and that disputes between the Government and the recipient are settled.

Submit, by June 6, 2008, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?
