

Proposed Project: List of Ingredients Added to Tobacco in the Manufacture of Cigarette Products, OMB No. 0920-0210 "Reinstatement—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

The Comprehensive Smoking Education Act of 1984 (15 U.S.C. 1336 or Pub. L. 98-474) requires each person who manufactures, packages, or imports

cigarettes to provide the Secretary of Health and Human Services (HHS) with a list of ingredients added to tobacco in the manufacture of cigarettes. This legislation also authorizes HHS to undertake research, and submit an annual report to Congress (as deemed appropriate) discussing the health effects of cigarette ingredients. HHS has delegated responsibility for the implementation of this Act to CDC's

Office on Smoking and Health (OSH). OSH has collected ingredient reports on cigarette products since 1986. Cigarette smoking is the leading preventable cause of premature death and disability in our Nation. Each year more than 400,000 premature deaths occur as the result of cigarette smoking related diseases. The estimated annualized burden is 1,406 hours.

Respondents	Number of respondents	Number of responses per respondent	Average burden per response (in hrs.)
Cigarette Manufacturers	38	1	37

Proposed Project: List of Ingredients Added to Tobacco in the Manufacture of Smokeless Tobacco Products, OMB No. 0920-0338—Reinstatement—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

The Comprehensive Smokeless Tobacco Health Education Act of 1986 (15 U.S.C. 4401 *et seq.*, Pub. L. 99-252) requires each person who manufactures,

packages, or imports smokeless tobacco (SLT) products to provide the Secretary of Health and Human Services (HHS) with a list of ingredients added to tobacco in the manufacture of smokeless tobacco products. This legislation also authorizes HHS to undertake research, and submit an annual report to the Congress (as deemed appropriate), discussing the health effects of ingredients in smokeless tobacco products. HHS delegated responsibilities for the implementation of this Act to CDC's Office on Smoking and Health (OSH). The oral use of SLT represents a significant health risk which can cause cancer and a number of non-cancerous oral conditions, and can lead to nicotine addiction and dependence. Furthermore, SLT use is not a safe substitute for cigarette smoking. The estimated annualized burden is 254 hours.

Proposed Project: The Role of Power and Control in Intimate Partner Violence—New—The National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

CDC plans to draw a sample of individuals convicted of battering in the

Dallas County Domestic Violence Court, and a sample of men living in Dallas County. The study participants will include two samples of men, who will be asked to complete a survey developed and tested by experts in the field of psychology and sociology. The

study will include psychological assessments of attachment depression, anger and sociological assessments of peer support for violence, attitudes toward violence, and attitudes toward sex roles.

The data will be collected to further understand the psychological and

sociological correlates of battering (*e.g.*, male battering of female partners), which will in turn assist in developing models for intervention programs. The estimated annualized burden is 899 hours.
