SUPPLEMENTARY INFORMATION:**History**

The FAA published a NPRM for Docket No. FAA-2017-1214 in the **Federal Register** (83 FR 19474; May 3, 2018) to amend Class E airspace in Knoxville, TN, by amending McGhee-Tyson Airport, Knoxville Downtown Island Airport, and University of Tennessee Medical Center Heliport. The comment period closed June 18, 2018. No comments were received. Subsequent to publication, the FAA determined that Monroe County Airport, Madisonville, TN, which is listed in the legal description for McGhee-Tyson Airport, should be removed from the Knoxville, TN, airspace designation for the Class E airspace extending upward from 700 feet above the surface, and be established under its own designation of Madisonville, TN. The FAA seeks comments on this SNPRM.

**Availability and Summary of
Documents for Incorporation by
Reference**

This document proposes to amend FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017. FAA Order 7400.11B is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Supplemental Proposal

The FAA is considering an amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 by removing the Class E airspace extending upward from 700 feet or more above the surface within a 6.5-mile radius of Monroe County Airport, Knoxville, TN, from the Knoxville, TN, designation associated with McGhee-Tyson Airport. Airspace would then be established for Monroe County Airport under its own designation of Madisonville, TN, within an 8.5-mile radius of the airport.

This change does not affect the other proposed amendments as published in the NPRM.

Class E airspace designations are published in Paragraph 6005 of FAA

Order 7400.11B, dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

Air Plan Approval; AL, FL, GA, KY, MS, NC, SC, TN; Interstate Transport for the 2012 PM_{2.5} NAAQS

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve portions of State Implementation Plan (SIP) submissions from Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee addressing the Clean Air Act (CAA or Act) interstate transport infrastructure SIP requirements for the 2012 Fine Particulate Matter (PM_{2.5}) National Ambient Air Quality Standards (NAAQS). The CAA requires that each state adopt and submit a SIP for the implementation, maintenance, and enforcement of each NAAQS promulgated by EPA, commonly referred to as an “infrastructure SIP.”

EPA is proposing to approve the interstate transport portions of these infrastructure SIPs for the aforementioned states as demonstrating that air emissions in the states do not significantly contribute to nonattainment or interfere with maintenance of the 2012 PM_{2.5} NAAQS in any other state.

DATES: Comments must be received on or before August 30, 2018.

ADDRESSES: Submit your comments, identified by Docket ID No EPA–R04–OAR–2016–0334 at <http://www.regulations.gov>. Follow the online instructions for submitting comments. SUPPLEMENTARY INFORMATION:

I. Background

On December 14, 2012, EPA revised the primary annual PM_{2.5} NAAQS to 12.0 micrograms per cubic meter (µg/m³). See 78 FR 3086 (January 15, 2013). An area meets the standard if the three-year average of its annual average PM_{2.5} concentration (at each monitoring site in the area) is less than or equal to 12.0 µg/m³. States were required to submit infrastructure SIP submissions for the 2012 PM_{2.5} NAAQS to EPA no later than December 14, 2015.
