

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11A is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11A lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 modifies Class E airspace designated as an extension to a Class D, at Charles M. Schulz-Sonoma County Airport, Santa Rosa, CA, by reducing the segment extending northwest of the airport to within 7.4 miles of the airport (from 14 miles), and adding a segment extending to 6.3 miles southeast of the airport. Additionally, part-time NOTAM language is added to the regulatory text consistent with the effective times of the Class D airspace area. Class E airspace extending upward from 700 feet above the surface is reduced to a polygon extending approximately 11 miles northwest, 11 miles southeast, and 12 miles south-southwest of the airport. This action removes reference to amending the geographic coordinates of the airport as the coordinates are correct. Therefore, an amendment to Class D airspace is not necessary as it only was correcting the airport coordinates.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” Prime; under Executive Order 12866; (2) is not a “significant rule” Prime; under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” Prime; paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2016–9138; Airspace Docket No. 16–AWP–13]

Amendment of Class E Airspace, Willows, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action to modifies Class E airspace extending upward from 700 feet above the surface at Willows-Glenn County Airport, Willows, CA, for the safety and management of Instrument Flight Rules (IFR) operations at the airport. Decommissioning of the Maxwell VHF Omni-directional Range/Tactical Air Navigation (VORTAC) navigation aid and cancellation of associated approaches has made this action necessary. Also, the airport’s geographic coordinates are adjusted to match the current FAA aeronautical database.

DATES: Effective 0901 UTC, April 27, 2017. The Director of the Federal Register approves this incorporation by reference action under Title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies controlled airspace at Willows-Glenn County Airport, Willows, CA, due to the decommissioning of the Maxwell VHF Omni-directional Range/Tactical Air Navigation (VORTAC) navigation aid and cancellation of associated approaches.

History

On November 25, 2016, the FAA published in the **Federal Register** (81 FR 85171), Docket FAA–2016–9138, a notice of proposed rulemaking to modify Class E airspace extending upward from 700 feet above the surface at Willows-Glenn County Airport, Willows, CA, by removing a segment extending 3 miles north of the Maxwell VHF Omni-directional Range/Tactical Air Navigation (VORTAC), which has been decommissioned. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11A, dated August 3, 2016, and effective September 15, 2016, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11A is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11A lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 modifies Class E airspace extending upward from 700 feet above the surface to within a 6.4-mile radius of Willows-Glenn County Airport, Willows, CA by removing a segment extending 3 miles north of the decommissioned Maxwell VORTAC. Additionally, the airport's geographic coordinates are updated to match the current FAA aeronautical database. These modifications are necessary to ensure the safety and management of IFR operations at the airport, with a minimum degree of airspace restriction.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion

under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
