SUPPLEMENTARY INFORMATION: DOE published a Request for Information ("RFI") pertaining to the energy conservation standards for small electric motors on April 9, 2019. 84 FR 14027.

The RFI initiated a data collection process to consider whether to amend DOE's energy conservation standards for small electric motors, and whether amending the standards for small electric motors would result in significant energy savings and be technologically feasible and economically justified. DOE requested written comment, data, and information pertaining to these standards by May 24, 2019.

On May 22, 2019, the National Electrical Manufacturers Association ("NEMA"), an interested party in the matter, requested a one-week extension of the public comment period for the RFI that DOE previously published in the **Federal Register** on April 9, 2019. (NEMA, EERE–2019–BT–STD–0008, No. 4) The comment period for the RFI closed on May 24, 2019.

DOE has determined that a reopening of the comment period to allow additional time for interested parties to submit comments is appropriate. Therefore, DOE is reopening the comment period and will accept comments until June 7, 2019, to provide interested parties additional time to prepare and submit comments. Accordingly, DOE will consider any comments received by this date, to be timely submitted.

Signed in Washington, DC, on May 23, 2019.

Steven Chalk,

Acting Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.
