

A requester can obtain certified and non-certified detailed yearly Social Security earnings information by completing Form SSA-7050, *Request for Social Security Earning Information*. We charge \$92 for each Form SSA-7050 for detailed yearly Social Security earnings information. For an additional \$30, we will certify the detailed earnings information. Detailed earnings information includes the names and addresses of employers. Yearly earnings totals are available in two ways, depending on the requester's need for certification. A requester can continue to obtain non-certified yearly earnings totals (Form SSA-7004, *Request for Social Security Statement*) through our free online service, *my Social Security*, a personal online account for Social Security information and services. Online Social Security Statements display uncertified yearly earnings, free of charge, and do not show any employer information. A requester can obtain certified yearly Social Security earnings totals by completing the Form SSA-7050. The cost for certified yearly earnings totals is \$122 (\$92 plus an additional \$30 for certification).

We will continue to evaluate all standard fees at least every two years to ensure we capture the full costs associated with providing information for non-program-related purposes. We require nonrefundable advance payment by check, money order, or credit card. We do not accept cash. We will only accept one form of payment in the full amount of the standard fee for each request, and will not divide the fee amount between more than one form of payment. If we revise any of the standard fees, we will publish another notice in the **Federal Register**. For other non-program requests for information not addressed here or within the current schedule of standard administrative fees, we will continue to charge fees calculated on a case-by-case basis to recover our full cost of supplying the information.

#### FOR FURTHER INFORMATION CONTACT:

Emily Belson, Office of Economic Sanctions Policy and Implementation, 202-647-6526; Robert Haas, Office of the Coordinator for Cuban Affairs, tel.: 202-453-8456, Department of State, Washington, DC 20520.

#### SUPPLEMENTARY INFORMATION:

##### Background

On June 16, 2017, the President signed National Security Presidential Memorandum-5 on Strengthening the Policy of the United States Toward Cuba (NSPM-5). As directed by NSPM-5, on November 9, 2017, the Department of the Treasury's Office of Foreign Assets Control (OFAC) published a final rule in the **Federal Register** amending the CACR, 31 CFR part 515, and the Department of Commerce's Bureau of Industry and Security (BIS) published a final rule in the **Federal Register** amending, among other sections, the section of the Export Administration Regulations (EAR) regarding Cuba, 15 CFR 746.2. The regulatory amendment to the CACR added § 515.209, which generally prohibits direct financial transactions with certain entities and subentities identified on the State Department's Cuba Restricted List. The regulatory amendment to 15 CFR 746.2, notes BIS will generally deny applications to export or re-export items for use by entities or subentities identified on the Cuba Restricted List. The State Department is now updating the Cuba Restricted list, as published below and available on the State Department's website (<https://www.state.gov/cuba-sanctions/cuba-restricted-list/>)

This update includes one additional subentity and an alias thereof. This is the seventh update to the Cuba Restricted List since it was published November 9, 2017 (82 FR 52089). Previous updates were published November 15, 2018 (see 83 FR 57523), March 9, 2019 (see 84 FR 8939), April 24, 2019 (see 84 FR 17228), July 26, 2019 (see 84 FR 36154), November 19, 2019 (see 84 FR 63953), June 12, 2020 (see 85 FR 35972), and a correction June 19, 2020 (85 FR 37146). The State Department will continue to update the Cuba Restricted List periodically.

The publication of the updated Cuba Restricted List further implements the directive in paragraph 3(a)(i) of NSPM-5 for the Secretary of State to identify the entities or subentities, as appropriate, that are under the control of, or act for or on behalf of, the Cuban military, intelligence, or security services or personnel, and publish a list of those identified entities and subentities with which direct financial transactions would disproportionately benefit such services or personnel at the expense of the Cuban people or private enterprise in Cuba.

#### Electronic Availability

This document and additional information concerning the Cuba Restricted List are available from the Department of State's website (<https://www.state.gov/cuba-sanctions/cuba-restricted-list/>).

#### List of Restricted Entities and Subentities Associated With Cuba as of September 29, 2020

Below is the U.S. Department of State's list of entities and subentities under the control of, or acting for or on behalf of, the Cuban military, intelligence, or security services or personnel with which direct financial transactions would disproportionately benefit such services or personnel at the expense of the Cuban people or private enterprise in Cuba. **ACTION:** Notice and request for  
comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew this information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on March 13, 2020. The collection involves maintaining and recording “the current status of life-limited parts of each airframe, engine, propeller, rotor, and appliance. The information to be collected is necessary for maintaining and recording that the part is airworthy.”

**DATES:** Written comments should be submitted by October 29, 2020.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). OMB Control Number: 2120–0665.

Title: Safe Disposition of Life Limited Aircraft Parts.

Form Numbers: None.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on March 13, 2020 (FAA–2020–0263, **Federal Register** Volume 85, Number 50 [Pages 14721–14722], Online via [[www.gpo.gov](http://www.gpo.gov)] [FR Doc No: 2020–05179]).

The FAA has found life-limited parts that exceeded their life-limits installed on type-certificated products during

accident investigations and in routine surveillance. Although such installation of life-limited parts violates existing FAA regulations, concerns have arisen regarding the disposition of these life-limited parts when they have reached their life limits. Concerns over the use of life-limited aircraft parts led Congress to pass a law requiring the safe disposition of these parts. The Wendell H. Ford Investment and Reform Act for the 21st Century (Pub. L. 106–181), added section 44725 to Title 49, United States Code.

### Current Requirements

The type design of an aircraft, aircraft engine, or propeller includes the Instructions for Continued Airworthiness (ICA), which includes the Airworthiness Limitations that describe life limits for parts installed on the product. See, for instance, 14 CFR 21.3(c) and 21.50. In order for an aviation product to comply with its type design, the life-limited parts installed on it must fall within the acceptable ranges described in the Airworthiness Limitations section of the Instructions for Continued Airworthiness. For this reason, installation of a life-limited part after the mandatory replacement time has been reached would be a violation of the maintenance regulations. Section 43.13(b) requires that maintenance work be completed so that the product worked on “will be at least equal to its original or properly altered condition. \* \* \* The product is not at least equal to its original or properly altered condition if a life-limited part has reached or exceeded its life limit. Existing regulations require that specific markings be placed on all life-limited parts at the time of manufacture. This includes permanently marking the part with a part number (or equivalent) and a serial number (or equivalent). See 14 CFR 45.14. Persons who install parts must have adequate information to determine a part’s current life status. In particular, documentation problems may mislead an installer concerning the life remaining for a life-limited part. This rule further provides for the data needs of subsequent installers to ensure they know the life remaining on a part and prevent the part being used beyond its life limit. Existing regulations provide for records on life-limited parts that are installed on aircraft. The regulations require that each owner or operator under § 91.417(a)(2)(ii) and each certificate holder under § 121.380(a)(2)(iii) or § 135.439(a)(2)(ii), maintain records showing “the current status of life-limited parts of each airframe, engine, propeller, rotor, and appliance.” These regulations do not
