

Properties'' (36 CFR part 800) and as part of its broad environmental review process, RUS must take into account the effect of the Project on historic properties. The National Historic Preservation Act (NHPA), Section 106 review is integrated with the NEPA review of cultural and historic resources in the FEIS in accordance with the guiding regulations of each law (40 CFR 1500–1508; 36 CFR 800.8). Thirty-nine tribes were invited to participate in the NHPA, Section 106 review process, attend the public scoping and Draft EIS meetings, and provide relevant information for inclusion in the EIS. Cultural and historic resources surveys within the area of potential effect identified one newly recorded historical archaeological site and 20 aboveground historical resources.

The structure associated with the archaeological site is no longer extant and extensive disturbances from agricultural practices have impacted the vertical and horizontal integrity of the site. The site had no discernable features or diagnostic material that contribute to the research potential of the site. Therefore, RUS determined that the archaeological site is not eligible for the National Register of Historic Places (NRHP). Based on the photographic documentation and available research, one aboveground historic resource is eligible for the NRHP under Criterion C. However, due to the location of aboveground historic resource relative to the Project location (roughly 1 mile east), and the proposed maximum Project height, the Project will not be visible, and RUS determined that the Project would have no adverse effect. The potential still exists that post-review discoveries of archaeological resources could be identified during Project construction, and these would be addressed by RUS in accordance with the NHPA Section 106 regulations for post-review discoveries (36 CFR 800.13).

All substantive public comments associated with the FEIS have been taken into consideration and addressed in the ROD. Based on consideration of the environmental impacts of the Project and comments received throughout the agency and public review process, RUS has determined that the Proposed Action as described above best meets the purpose and need for the Project. RUS finds that the evaluation of reasonable alternatives is consistent with NEPA and RUS Environmental Policies and Procedures. Details regarding RUS regulatory decision and

compliance with applicable regulations are included in the ROD.

Certain Steel Nails From India, Sri Lanka, Thailand, and the Republic of Turkey: Postponement of Preliminary Determinations in the Less-Than-Fair-Value Investigations

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable May 20, 2022.

FOR FURTHER INFORMATION CONTACT:

David Lindgren (India), Allison Hollander (Sri Lanka), Laurel LaCivita and Matthew Palmer (Thailand), or David Crespo (Republic of Turkey (Turkey)), AD/CVD Operations, Office I, II, or III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–1671, (202) 482–2805, (202) 482–4243, (202) 482–1678, or (202) 482–3693, respectively.

SUPPLEMENTARY INFORMATION:

Background

On January 19, 2022, the U.S. Department of Commerce (Commerce) initiated less-than-fair-value (LTFV) investigations of imports of certain steel nails (steel nails) from India, Sri Lanka, Thailand, and Turkey.¹ Currently, the

¹ See *Certain Steel Nails from India, Sri Lanka, Thailand, and the Republic of Turkey: Initiation of*

preliminary determinations are due no later than June 8, 2022.

Postponement of Preliminary Determinations

Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), requires Commerce to issue the preliminary determination in an LTFV investigation within 140 days of the date on which Commerce initiated the investigation. However, section 733(c)(1) of the Act permits Commerce to postpone the preliminary determination until no later than 190 days after the date on which Commerce initiated the investigation if: (A) The petitioner makes a timely request for a postponement; or (B) Commerce concludes that the parties concerned are cooperating, that the investigation is extraordinarily complicated, and that additional time is necessary to make a preliminary determination. Under 19 CFR 351.205(e), the petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reasons for the request. Commerce will grant the request unless it finds compelling reasons to deny the request.

On May 9, 2022, Mid Continent Steel & Wire, Inc. (the petitioner) submitted a timely request that Commerce postpone the preliminary determinations in these LTFV investigations.² The petitioner stated that it requests postponement because: (1) Commerce has not yet received complete responses to its initial and supplemental questionnaires from the respondents in these investigations; and (2) the petitioner has identified deficiencies in the responses already provided by the respondents that must be remedied prior to Commerce's issuance of its preliminary determinations.³

For the reasons stated above, and because there are no compelling reasons to deny the request, Commerce, in accordance with section 733(c)(1)(A) of the Act and 19 CFR 351.205(e), is postponing the deadline for these preliminary determinations by 50 days (*i.e.*, 190 days after the date on which these investigations were initiated). As a result, Commerce will issue its preliminary determinations no later than July 28, 2022. In accordance with section 735(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final

determinations in these investigations will continue to be 75 days after the date of the preliminary determinations, unless postponed at a later date.

Notification to Interested Parties

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: May 16, 2022.

Assistant Secretary for Enforcement and Compliance.

Freight Rail Coupler Systems and Certain Components Thereof From the People's Republic of China: Final Affirmative Countervailing Duty Determination

AGENCY: Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that countervailable subsidies are being provided to producers and exporters of freight rail coupler systems and certain components thereof (freight rail couplers) from the People's Republic of China (China) during the period of investigation January 1, 2020, through December 31, 2020.

DATES: Applicable May 20, 2022.

FOR FURTHER INFORMATION CONTACT: Whitley Herndon, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–6274.

SUPPLEMENTARY INFORMATION:

Background

The petitioner in this investigation is the Coalition of Freight Coupler Producers. In addition to the Government of China, the mandatory respondent in this investigation is Chongqing Tongyao Transportation Equipment Co. (Chongqing Tongyao).

On March 7, 2022, Commerce published in the **Federal Register** the **Preliminary Determination** of this investigation.¹ The deadline for the final

determination of this investigation is May 16, 2022.

On April 11, 2022, we issued a post-preliminary decision memorandum addressing a scope issue raised in the context of this and the companion less-than-fair-value (LTFV) investigations, in which we preliminarily found that it was unnecessary to alter the scope stated in the *Initiation Notice*.² We received case briefs addressing this preliminary scope decision from two importers of subject merchandise, Strato Inc. (Strato) and Wabtec Corporation (Wabtec), on April 18, 2022,³ and rebuttal comments from the petitioner on April 22, 2022.⁴

We received no comments or case briefs addressing any of the other findings in the *Preliminary Determination*; therefore, there is no unpublished Issues and Decision Memorandum accompanying this notice.

Period of Investigation

The period of investigation is January 1, 2020, through December 31, 2020.

Scope of the Investigation

The products covered by this investigation are freight rail coupler systems and certain components from China. For a complete description of the scope of this investigation, *see* the appendix.

Scope Comments

In Commerce's *Preliminary Determination*,⁵ we set aside a period of time for parties to raise issues regarding product coverage (*i.e.*, scope) in scope case briefs or other written comments on scope issues. As noted above, the petitioner and two interested parties, Strato and Wabtec, commented on the scope of the investigation as it appeared in the *Initiation Notice*,⁶ and Post-Preliminary Scope Decision Memorandum.
