

annual agency Information Security and Privacy training. EPA personnel are instructed to lock their computers when they leave their desks.

2. *Technical Safeguards:* Electronic records are maintained in a secure password protected environment. Access to records is limited to those who have a need to know. Electronic records are restricted to authorized users with appropriate security privileges, including the use of 2-factor PIV Card authentication and permission level assignments. Web-based connections are Tier3 VPN encrypted sessions between EPA and DOI. The database is maintained behind a firewall. WTTS/EOD, FedTalent, OBIEE, and FPPS have multiple levels of role-based access controls that protect the privacy of information in HR LoB. The level of these access controls determines the security privileges of HR LoB users. There are three levels of role-based security (User, Security, Administrator) and they follow the separation of duties outlined in NIST guidance.

3. *Physical Safeguards:* These records are maintained in controlled access areas. Identification cards are verified to ensure that only authorized personnel can access.

RECORD ACCESS PROCEDURES:

Individuals seeking access to information in this system of records about themselves are required to provide adequate identification (*e.g.*, driver's license, military identification card, employee badge or identification card). Additional identity verification procedures may be required, as warranted. Requests must meet the requirements of EPA regulations that implement the Privacy Act of 1974, at 40 CFR part 16.

CONTESTING RECORDS PROCEDURES:

Requests for correction or amendment must identify the record to be changed and the corrective action sought. Complete EPA Privacy Act procedures are described in EPA's Privacy Act regulations at 40 CFR part 16.

NOTIFICATION PROCEDURES:

Any individual who wants to know whether this system of records contains a record about themselves, should make a written request to: Attn: Agency Privacy Officer, MC 2831T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, or to privacy@epa.gov.

SUPPLEMENTARY INFORMATION: EPA developed PCORS for use on EPA's Business Automation Platform (BAP), a strategic platform for business process automation. PCORS is accessible through <https://forms.epa.gov> and <https://epaoei.lightning.force.com/lightning/page/home>. EPA uses PCORS to manage the pre-approval process for purchase card orders and to place orders once approved. Requesters can submit their requests in PCORS (Interface 1). Requests are then routed to the purchase cardholder (PCH) for an initial review, followed by the cardholder's approving official (AO), and finally the Funds Certifying Officer (FCO) for funding before notifying the cardholder that the request is in Fully Approved—Ready to Order status. The PCH, AO, and FCO are the three mandatory approvers on each purchase request though other roles are available in the system.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Security controls used to protect Personally Identifiable Information (PII) in PCORS are commensurate with those required for an information system rated MODERATE for confidentiality, integrity, and availability, as prescribed in National Institute of Standards and Technology (NIST) Special Publication, 800-53, "Security and Privacy Controls for Information Systems and Organizations," Revision 5.

1. *Administrative Safeguards:* EPA personnel are required to complete annual agency Information Security and Privacy training. EPA personnel are instructed to lock their computers when they leave their desks.

2. *Technical Safeguards:* Electronic records are maintained in a secure, password protected electronic system. PCORS access is limited to authorized, authenticated users integrated with the Agency's single-sign-on. This integration uses the user's LAN credentials to identify the user prior to granting access to the platform and PCORS system. All the system's electronic communication utilizes the agency's Secure Sockets Layer (SSL) encryption for all transactions.

3. *Physical Safeguards:* All records are maintained in secure, access-controlled areas or buildings.

Cross-Media Electronic Reporting: Authorized Program Revision Approval, Maryland Department of the Environment (MDE)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the Environmental Protection Agency's (EPA) approval of the Maryland Department of the Environment (MDE) request to revise/modify certain of its EPA-authorized programs to allow electronic reporting.

DATES: EPA approves the authorized program revisions/modifications as of December 10, 2021.

FOR FURTHER INFORMATION CONTACT: Shirley M. Miller, U.S. Environmental Protection Agency, Office of Information Management, Mail Stop 2824T, 1200 Pennsylvania Avenue NW, Washington,

DC 20460, (202) 566-2908, miller.shirley@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On June 24, 2021, the Maryland Department of the Environment (MDE) submitted an application titled Industrial Pretreatment Program for revisions/modifications to its EPA-approved programs under title 40 CFR to allow new electronic reporting. EPA reviewed MDE's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve MDE's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR is being published in the **Federal Register**: Part 142: National Primary Drinking Water Regulations Implementation (NPDWR) reporting under CFR 141 MDE was notified of

EPA's determination to approve its application with respect to the authorized programs listed above.

Dated: December 7, 2021.
