

name and address, a description of the property, and a certification statement that the trees removed from the owner's property were stone fruit trees from commercial fruit orchards or fruit tree nurseries. For claims made by owners of stone fruit orchards, the completed application must be accompanied by a copy of the EAN ordering the destruction of their trees, the notification's accompanying inventory describing the acreage and ages of trees removed and documentation verifying that the destruction of the trees have been completed and the date of that completion. For claims made by owners of fruit tree nurseries, the completed application must be accompanied by a copy of the EAN prohibiting the same or movement of the nursery stock, the notification's accompanying inventory describing the total number of trees covered by the EAN, their age and variety, and documentation indicating the final disposition of the nursery stock. Applicants may also need to apply for a DUNS number and provide direct deposit information for payments. Without the information APHIS would be unable to compensate eligible grove and nursery owners for their losses.

Description of Respondents: State Plant Health Officials; Business or other for-profit; Farm.

Number of Respondents: 2.

Frequency of Responses: Reporting, Recordkeeping: On occasion.

Total Burden Hours: 5.

[Docket No. APHIS-2023-0023]

Notice of Availability of a Pest Risk Analysis for the Importation of Fresh Ginseng Roots (*Panax ginseng* C.A. Mey.) From the Republic of Korea into the United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that we have prepared a pest risk analysis that evaluates the risks associated with importation of fresh ginseng roots (*Panax ginseng* C.A. Mey.) from the Republic of Korea into the United States. Based on the analysis, we

have determined that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of fresh ginseng roots (*Panax ginseng* C.A. Mey.) from the Republic of Korea. We are making the pest risk analysis available to the public for review and comment.

DATES: We will consider all comments that we receive on or before June 30, 2023.

ADDRESSES: You may submit comments by either of the following methods:

- **Federal eRulemaking Portal:** Go to www.regulations.gov. Enter APHIS-2023-0023 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- **Postal Mail/Commercial Delivery:** Send your comment to Docket No. APHIS-2023-0023, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road, Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at www.regulations.gov or in our reading room, which is located in room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: Mr. Hesham Abuelnaga, Senior Regulatory Policy Specialist, Regulatory Coordination and Compliance, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, MD 20737-1231; (301) 851-2010; email: Hesham.A.Abuelnaga@usda.gov.

SUPPLEMENTARY INFORMATION:

Background

Under the regulations in “Subpart L—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) prohibits or restricts the importation of fruits and vegetables into the United States from certain parts of the world to prevent plant pests from being introduced into or disseminated within the United States.

Section 319.56–4 contains a performance-based process for approving the importation of fruits and vegetables that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the

five designated phytosanitary measures listed in paragraph (b) of that section.

APHIS received a request from the national plant protection organization (NPPO) of the Republic of Korea to allow the importation of fresh ginseng roots (*Panax ginseng* C.A. Mey.) from the Republic of Korea into the United States. As part of our evaluation of the Republic of Korea's request, we have prepared a pest risk assessment to identify the pests of quarantine significance that could follow the pathway of the importation of fresh ginseng roots into the United States from the Republic of Korea. Based on the pest risk assessment, a risk management document (RMD) was prepared to identify phytosanitary measures that could be applied to the fresh ginseng roots to mitigate the pest risk.

Therefore, in accordance with § 319.56–4(c), we are announcing the availability of our pest risk assessment and RMD for public review and comment. Those documents, as well as a description of the economic considerations associated with the importation of fresh ginseng roots from the Republic of Korea, may be viewed on the Regulations.gov website or in our reading room (see **ADDRESSES** above for a link to Regulations.gov and information on the location and hours of the reading room). You may request paper copies of the pest risk assessment and RMD by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the subject of the analysis you wish to review when requesting copies.

After reviewing any comments we receive, we will announce our decision regarding the import status of fresh ginseng roots from the Republic of Korea in a subsequent notice. If the overall conclusions of our analysis and the Administrator's determination of risk remain unchanged following our consideration of the comments, then we will authorize the importation of fresh ginseng roots from the Republic of Korea into the United States subject to the requirements specified in the RMD.

Authority: 7 U.S.C. 1633, 7701–7772, and 7781–7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 24th day of April 2023.

Michael Watson,

Acting Administrator, Animal and Plant Health Inspection Service.
