SUPPLEMENTARY INFORMATION:

A. Purpose

GSA has various mission
responsibilities related to the
acquisition and provision of supplies,
transportation, information technology,
telecommunications, real property
management, and disposal of real and
personal property. These mission
responsibilities generate requirements
that are realized through the solicitation
and award of public contracts.

Most GSA procurement-related
information collections are required by
the Federal Acquisition Regulation
(FAR) or General Services
Administration Acquisition Regulation
(GSAR); each clause requiring such a
collection must be individually
approved by OMB. However, some
solicitations require contractors to
submit information specific to that
contracting action, such as information
needed to evaluate offers (e.g. specific
instructions for technical and price
proposals, references for past
performance) or data used to administer
resulting contracts (e.g. project
management plans).

This information collection is
currently associated with GSA's
information collection requirements
contained in solicitations issued in
accordance with the Uniform Contract
Format under FAR Part 14, Sealed
Bidding (see GSAR 514.201-1); FAR
Part 15, Contracting by Negotiation (see
GSAR 552.215-73); and solicitations
under FAR Part 12, Acquisition of
Commercial Items (see GSAR 512.301).
This includes information collection
requirements found in GSA Federal
Supply Schedule (FSS) solicitations.
