SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) is required by 35 U.S.C. 131 and 151 to examine applications and, when appropriate, allow applications and issue them as patents. Chapter 30 of Title 35 U.S.C. provides that any person at any time may file a request for reexamination by the USPTO of any claim of a patent on the basis of prior art patents or printed publications. Once initiated, the reexamination proceedings under Chapter 30 are substantially *ex parte* and do not permit input from third parties. The rules outlining *ex parte* reexaminations are found at 37 CFR 1.510-1.570.

35 U.S.C. 257 permits a patent owner to request supplemental examination of a patent by the USPTO to consider, reconsider, or correct information believed to be relevant to the patent. The rules outlining supplemental

examination are found at 37 CFR 1.601-1.625.

The Leahy-Smith America Invents Act terminated *inter partes* reexamination effective September 16, 2012. However, *inter partes* reexamination proceedings based on *inter partes* reexamination requests filed before September 16, 2012, continue to be prosecuted. Therefore, this collection continues to include items related to the prosecution of *inter partes* reexamination proceedings. The rules outlining *inter partes* reexaminations are found at 37 CFR 1.903-1.931.

Thus, the items included in this collection cover (i) requests for *ex parte* reexamination, (ii) requests for supplemental examination, and (iii) information that may be submitted by patent owners and third party requesters in relation to the prosecution of an *ex parte* or *inter partes* reexamination proceeding. It should be noted that the Requests for *Ex Parte* Reexamination and Supplemental Examination are distinct collections from the Request for *Ex Parte* Reexamination and Supplemental Examination Transmittal Forms, respectively. Whereas the transmittal forms are used by a requester (patent owner or third party) as a checklist to ensure compliance with the requirements of the statutes and rules for *ex parte* reexaminations and supplemental examinations, the requests themselves represent the substantive analysis undertaken by requesters of *ex parte* reexamination and supplemental examination.

The public uses this information collection to request *ex parte* reexamination and supplemental examination, to prosecute reexamination proceedings, and to ensure that the associated documentation is submitted to the USPTO.

II. Method of Collection

By mail, facsimile, hand delivery, or electronically to the USPTO.

Estimated Total Annual Hour Burden: 95,290 hours.

Estimated Total Annual Cost Burden (Hourly): \$37,067,810 per year. The USPTO expects that the information in this collection will be prepared by attorneys. Using the professional rate of

\$389 per hour for attorneys in private firms, the USPTO estimates that the respondent cost burden for this collection will be approximately \$37,067,810 per year.

Estimated Total Annual Cost Burden (Non-Hourly): \$929.80 per year. There are no capital start-up, recordkeeping, or maintenance costs associated with this information collection. However, this collection does have annual (non-hour) costs in the form of postage costs.

Postage

The USPTO expects that approximately 95 percent of the responses in this collection will be submitted electronically. Of the remaining 5 percent, the vast majority—98 percent—will be submitted by mail, for a total of 204 mailed submissions. The documentation for requests for supplemental examination and requests for *ex parte* reexamination will typically be mailed to the USPTO with the appropriate transmittal form, reducing

the number of unique mailings to 180. The USPTO estimates that the average postage cost for a mailed submission will be \$0.49 cents for Petitions to Request Extension of Time and \$5.75 for all other mailed submissions. Therefore, the USPTO estimates a total postage cost of approximately \$929.80 per year.

The total non-hour respondent cost burden for this collection in the form of postage costs is approximately \$929.80 per year.

Filing Fees

The fees in 0651–0064 were moved into collection 0651–0072 (America Invents Act Section 10 Patent Fee Adjustments). As a result, this collection no longer includes any filing or processing fees.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information

technology, *e.g.*, permitting electronic submission of responses.

Comments submitted in response to this notice will be summarized or included in the request for OMB approval of this information collection; they will also become a matter of public record.

Dated: March 13, 2015.

Officer.*

Welded Line Pipe From the Republic of Turkey: Preliminary Affirmative Countervailing Duty Determination and Alignment of Final Determination With Final Antidumping Determination

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) preliminarily determines that countervailable subsidies are being provided to producers and exporters of welded line pipe from the Republic of Turkey (Turkey). The period of investigation is January 1, 2013, through December 31, 2013. Interested parties are invited to comment on this preliminary determination.

DATES: Effective March 20, 2015.

FOR FURTHER INFORMATION CONTACT:

Elizabeth Eastwood or Dennis McClure, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of

Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-3874 or (202) 482-5973, respectively.

Alignment of Final Countervailing Duty (CVD) Determination With Final Antidumping Duty (AD) Determination

On the same day the Department initiated this CVD investigation, the Department also initiated a CVD investigation of welded line pipe from the Republic of Korea (Korea) and AD investigations of welded line pipe from Korea and Turkey.¹ The CVD and AD investigations cover the same merchandise. On February 27, 2015, in accordance with section 705(a)(1) of the Tariff Act of 1930, as amended (Act), the petitioners² requested alignment of the final CVD determination with the final AD determination of welded line pipe from Turkey. Therefore, in accordance with section 705(a)(1) of the Act and 19 CFR 351.210(b)(4), we are aligning the final CVD determination with the final AD determination. Consequently, the final CVD determination will be issued on the same date as the final AD determination, which is currently scheduled to be issued no later than July 28, 2015, unless postponed.

Scope of the Investigation

The scope of the investigation covers welded line pipe, which is carbon and alloy steel pipe of a kind used for oil or gas pipelines, not more than 24 inches in nominal outside diameter. For a complete description of the scope of the investigation, *see* Appendix I.

Scope Comments

Certain interested parties commented on the scope of the investigation as it appeared in the *Initiation Notice*. For discussion of those comments, *see* the Preliminary Decision Memorandum.³

Methodology

The Department is conducting this CVD investigation in accordance with section 701 of the Act. For each of the subsidy programs found countervailable, we preliminarily determine that there is a subsidy (*i.e.*, a financial contribution by an “authority” that gives rise to a benefit to the recipient) and that the subsidy is specific.⁴ For a full description of the methodology underlying our preliminary conclusions, *see* the Preliminary Decision Memorandum.

The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS).⁵ ACCESS is available to registered users at <http://access.trade.gov>, and is available to all parties in the Central Records Unit, room 7046 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed Preliminary Decision Memorandum and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Preliminary Determination and Suspension of Liquidation

In accordance with section 703(d)(1)(A)(i) of the Act, we calculated a CVD rate for each individually-investigated producer/exporter of the subject merchandise. For companies not individually investigated, we have calculated an “all others” rate as described below. We preliminarily determine the countervailable subsidy rates to be:

Company	Subsidy rate (percent)
Borusan Istikbal Ticaret, Borusan Mannesmann Boru Sanayi ve Ticaret A.S., Borusan Mannesmann Boru Yatirim Holding A.S., and Borusan Holding A.S.	8.85
Tosçelik Profil ve Sac Endustrisi A.S., Tösyali Demir Celik Sanayi A.S., Tösyali Dis Ticaret A.S., Tösyali Elektrik Enerjisi Toptan Satis Ith. Ihr. A.S., and Tösyali Holding A.S. ⁶	3.76
