

notice of intent to file a development application allows an interested person to file the competing application no later than 120 days after the specified comment date for the particular application. A competing license application must conform with 18 CFR 4.30(b) and 4.36.

o. Notice of Intent: A notice of intent must specify the exact name, business address, and telephone number of the prospective applicant, and must include an unequivocal statement of intent to submit, if such an application may be filed, either a preliminary permit application or a development application (specify which type of application). A notice of intent must be served on the applicant(s) named in this public notice.

p. Proposed Scope of Studies under Permit: A preliminary permit, if issued, does not authorize construction. The term of the proposed preliminary permit would be 36 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on the results of these studies, the Applicant would decide whether to proceed with the preparation of a development application to construct and operate the project.

q. Comments, Protests, or Motions to Intervene: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, 385.211, 385.214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

r. Filing and Service of Responsive Documents: Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426. An additional copy must be sent to Director, Division

of Hydropower Administration and Compliance, Federal Energy Regulatory Commission, at the above-mentioned address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

s. Agency Comments: Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

SUPPLEMENTARY INFORMATION: Information Requirements for EPA Worker Protection Standards for Hazardous Waste Operations and Emergency Response, OMB Control No. 2050-0105, EPA ICR No. 1426.06, expiring October 31, 2002. This is a request for extension of a currently approved collection.

Abstract: This information collection request (ICR) addresses the information requirements for the U.S. Environmental Protection Agency's (EPA) worker protection standards for hazardous waste operations and emergency response under section 126(f) of the Superfund Amendments and Reauthorization Act of 1986 (SARA). SARA section 126(a) requires the Secretary of Labor to promulgate health and safety standards pursuant to section 6 of the Occupational Safety and Health Act of 1970 (OSH Act), for employees engaged in hazardous waste operations and emergency response. Section 126(b) lists eleven worker protection provisions that the Secretary of Labor was directed to include in the regulation (see attached copy of Section 126 of SARA, PL 99-499). These provisions include preparation of various written programs, plans, and records, monitoring of airborne hazards, training of employees, medical surveillance, and the dissemination of information to employees. Certain aspects of these provisions necessitate the collection of information by employers whose employees are engaged in hazardous
