Abstract: Authorized by the National Park Service Act Organic Act, 54 U.S.C. 100101, we must preserve America's natural wonders unimpaired for future generations, while also making them available for the enjoyment of the visitor. Meeting this mandate requires that we balance preservation with use. Maintaining a good balance requires both information and use. In accordance with regulations at 36 CFR, we issue permits for special park uses. Special park uses cover a wide range of activities including, but not limited to special events, First Amendment activities, grazing and agricultural use, filming, still photography, construction, and vehicle access. Permits are issued for varying durations of time based on the requested use, but generally do not exceed 5 years. A new application must be submitted in order to request the renewal of an existing permit.

The information we collect in the special use applications allows park managers to determine if the requested use is consistent with the laws and NPS regulations referenced above and with the public interest. The park manager must also determine that the requested activity will not cause unacceptable impacts to park resources and values. The information is collected using the following NPS forms:

- 10–930—Application for Special Use Permit
- 10–930c—Application for Special Use Permit—Climbing
- 10–930s—Application for Special Use Permit (short form)
- 10–931—Application for Special Use Permit—Still Photography Permit (short)
- 10–932—Application for Special Use Permit—Still Photography Permit (long)
- 10–933—Application for Special Use Permit—Vehicle/Watercraft Use

With this renewal, we are requesting to introduce two new forms to this collection:

(1) *Form 10–934 Application for Special Use Permit—Demonstrations and Distribution of Materials*. This new form will be used to authorize First Amendment activities in system units.

(2) *Form 10–930q—Special Park Use Application/Permit—Quarry Activities*.

Per 36 CFR 7.42, this new form will be used to authorize quarry activities specific to Pipestone National Monument.

Information collected on the forms is used to evaluate requests for Special Use Permits and facilitate the permitting process. If the requested use is consistent with park regulations, the information collected is used to issue a permit.

Change in Discount Rate for Water Resources Planning

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of change in discount rate.

SUMMARY: The Bureau of Reclamation is announcing the interest rate to be used by Federal agencies in the formulation and evaluation of plans for water and related land resources is 2.75 percent for fiscal year 2024.

DATES: This discount rate is to be used for the period October 1, 2023, through and including September 30, 2024.

FOR FURTHER INFORMATION CONTACT: Brandee Blumenthal, Bureau of Reclamation, Reclamation Law Administration Division, P.O. Box 25007, Denver, Colorado 80225; telephone (303) 445-2435; or email at bblumenthal@usbr.gov.

SUPPLEMENTARY INFORMATION: The Water Resources Planning Act of 1965 and the Water Resources Development Act of 1974 require an annual determination of a discount rate for Federal water resources planning. The discount rate for Federal water resources planning for fiscal year 2024 is 2.75 percent. The prior year's rate, as announced in the **Federal Register** on November 4, 2022 (87 FR 66745), was 2.50 percent for fiscal year 2023. Discounting is to be used to convert future monetary values to present values.

This rate has been computed in accordance with Section 80(a), Public Law 93-251 (88 Stat. 34), and 18 CFR 704.39, which: (1) specify that the rate will be based upon the average yield during the preceding fiscal year on interest-bearing marketable securities of the United States which, at the time the computation is made, have terms of 15 years or more remaining to maturity (average yield is rounded to nearest one-eighth percent); and (2) provide that the rate will not be raised or lowered more than one-quarter of 1 percent for any year. The U.S. Department of the Treasury calculated the specified average to be 4.0332 percent. In accordance with the Water Resource Council Rules and Regulations, the maximum adjustment allowed for the current fiscal year rate is one-quarter of one percentage point from the previous fiscal year rate, which was 2.50 percent. Therefore, the fiscal year 2024 rate is 2.75 percent.
