Service and Construction Contracts**

**AGENCIES:** Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Final rule.

**SUMMARY:** The Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) have agreed on a final rule amending the Federal Acquisition Regulation (FAR) to clarify language within the FAR on the use of products containing recovered materials, pursuant to the Resource Conservation and Recovery Act of 1976, and Executive Order 13101 “Greening the Government Through Waste Prevention, Recycling, and Federal Acquisition.”

**DATES:** *Effective Date:* May 22, 2008.

**FOR FURTHER INFORMATION CONTACT:** Mr. William Clark, Procurement Analyst, at (202) 219–1813 for clarification of content. For information pertaining to status or publication schedules, contact the FAR Secretariat at (202) 501–4755. Please cite FAC 2005–25, FAR case 2005–039.

**SUPPLEMENTARY INFORMATION:****A. Background**

DoD, GSA, and NASA published a proposed rule in the **Federal Register** at 72 FR 24554, May 3, 2007, to clarify language within the FAR regarding the use of products containing recovered materials, pursuant to the Resource Conservation and Recovery Act of 1976, and Executive Order 13101 “Greening the Government Through Waste Prevention, Recycling, and Federal Acquisition.” This rule revises Subpart 23.4 and associated provisions and clauses in Part 52, with conforming changes in FAR Parts 4, 12, and 13, to—

- (1) Provide for consistency when referring to products containing recovered materials;
- (2) Clarify that the requirement for products containing recovered materials

applies (a) when agencies require the delivery or specify the use of Environmental Protection Agency (EPA)-designated items, and (b) when agencies award contracts for services or construction unless the service or construction contract will not involve the use of such items;

(3) Prescribe a new clause for use in service and construction contracts when appropriate; and

(4) Revise the Recovered Material Certification provision to reflect the changes of this rule.

No comments were received for the proposed rule.

Note: Since the publication of the proposed rule, the FAR has already been amended to include a number of the changes proposed under this rule (see FAR Case 2004–032, Biobased Products Preference Program, (72 FR 63040, November 7, 2007)).

This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

**B. Regulatory Flexibility Act**

The Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, applies to this final rule. Small business concerns and other interested parties were invited to submit comments concerning the affected FAR Parts. No comments were received. The Councils prepared a Final Regulatory Flexibility Analysis (FRFA), and it is summarized as follows:

This final rule amends and clarifies language within the FAR on the use of products containing recovered materials pursuant to the Resource Conservation and Recovery Act (RCRA) of 1976, and Executive Order 13101 “Greening the Government Through Waste Prevention, Recycling, and Federal Acquisition. Although the statute applies to all contracts, the Office of the Federal Environmental Executive advised that language at FAR Subpart 23.4 has not been consistently implemented by Government agencies in service and construction acquisitions. The Councils recognize that the rule may affect small entities performing contracts for those agencies that have not fully implemented the program in service and construction contracts; the number of entities affected, and the extent to which they will be affected, may be significant. The rule may affect the types of products these businesses use during contract performance. Assistance is available to all firms at the Environmental Protection Agency (EPA) Comprehensive Procurement Guidelines website, <http://www.epa.gov/cpg>. EPA provides guidance on identifying products containing recovered materials, including Product Fact Sheets and a Supplier Database. Options to comply with the requirements of the rule can be as simple as

purchasing products made with recovered materials to be used in service and construction contracts. The rule does not impose new requirements that impose a burden on contractors.

The rule revises text at FAR Subpart 23.4 to clarify that the requirement for use of products containing recovered materials applies when agencies purchase EPA-designated items, and when purchasing services (including construction) that could include the use of such items. The objective of this rule is to ensure that contractors deliver and make maximum use of products containing recovered materials in contracts for services and construction.

This final rule applies to all small business entities that contract with the Federal Government for delivery of EPA-designated items or performance of services or construction contracts that involve the use of EPA-designated items. The final rule allows for procurement exemptions.

The rule does not impose any new reporting, recordkeeping, or compliance requirements.

Interested parties may obtain a copy of the FRFA from the FAR Secretariat. The FAR Secretariat has submitted a copy of the FRFA to the Chief Counsel for Advocacy of the Small Business Administration.

**C. Paperwork Reduction Act**

The Paperwork Reduction Act does apply; however, these changes to the FAR do not impose additional information collection requirements to the paperwork burden previously approved under OMB Control Number 9000–0134.
