SUPPLEMENTARY INFORMATION:

I. Introduction

During the period from June 1, 2024, to June 30, 2024, the NRC granted two exemptions in response to requests submitted by the following licensees: TMI–2 Solutions; and Constellation Energy Generation, LLC.

These exemptions temporarily allow the licensee to deviate from certain requirements of part 73 of title 10 of the *Code of Federal Regulations* (10 CFR), "Physical Protection of Plants and Materials," subpart T, "Security Notifications, Reports, and Recordkeeping." In support of their exemption requests, the licensees agreed to effect site-specific administrative controls that maintain the approach to complying with 10 CFR part 73 in effect prior to the NRC's issuance of a final rule, "Enhanced Weapons, Firearms Background Checks, and Security Event Notifications," which was published in the **Federal Register** on March 14, 2023, and became effective on April 13, 2023 (88 FR 15864).

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-302 and 72-1035; NRC-2024-0124]

Accelerated Decommissioning Partners Crystal River Unit 3, LLC; Crystal River Nuclear Power Station, Unit 3; Environmental Assessment and Finding of No Significant Impact

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing a finding of no significant impact (FONSI) and accompanying environmental assessment (EA) regarding the NRC's consideration of a license amendment request by Accelerated Decommissioning Partners Crystal River Unit 3, LLC (ADP) to approve the License Termination Plan (LTP) for the Crystal River Nuclear Power Station,

Unit 3 (CR3), located in Citrus County, Florida. If approved, the amendment would add a license condition to the ADP license reflecting the NRC's approval of its LTP and establishing criteria for determining when changes to the LTP require prior NRC approval. ADP would use the LTP to meet the requirements for terminating the license and releasing the site for unrestricted use. Based on the EA, the NRC staff has concluded that there will be no significant impacts to environmental resources from the requested license amendment, and therefore, a FONSI is appropriate.

DATES: The EA and FONSI referenced in this document are available on July 17, 2024.
